Morning Oregonian.

PORTLAND, OREGON: SATURDAY MORNING, APRIL 26, 1884 — NO. 7478

HENLEY SUPPRESSES BELFORD.

The Californian Completely Silences the Colorado Statesman.

WASHINGTON, April 25.—[Special.]—The house had a lively time yesterday afternoon over the naval appropriation bill, which was taken up on Randall's motion to non-concur in the senate amendments to provide for the construction of seven new cruisers and the armament of those already under contract, by which $6,000,000 has been added to the total bill, as it originated in the house. Much to the surprise of the members Blackburn of Kentucky, championed the amendment providing armament, and on his motion it was concurred in, by a vote of 115 to 92. All the others, however, were defeated. During the debate Cox of New York placed his opposition to the amendment on the ground that if the house consented to construct a new navy, pending the presidential election, vast crowds of workmen would be put on the navy yards, and made to vote the republican ticket.

Kasson upbraided Cox for his unstatesmanlike attitude, and denied that any navy yard employes had been used to elect republican candidates. Upon this question of fact a lively tilt occurred between Cox and Kasson.

A REPLY TO KASSON.

While it was unsettled, Henley of California obtained the floor. He said: "The truth of history seems to stand sadly in need of vindication on this floor, in respect to civil service reform, as exemplified by the republican party. The gentleman from Iowa (Mr. Kasson) believes or affects to believe that his party has been faithful and loyal to the principles of civil service reform, and most especially that no employe of the government on a navy yard has for years past been assessed for political purposes. Sir, the country will hear this declaration from the gentleman from Iowa with a keen sensation of genuine amazement. During the last congressional campaign, that resulted in filling this hall with democrats, Dorman B. Eaton, a republican, and now of the civil service reform commission, published an article in the *North American Review*, in which he said that so far as he could learn, after diligent inquiry, he could not find a solitary instance of an employe of the federal government escaping this sweeping, universal assessment, which was levied under the inspiration of 'my dear Hubbell.'"

CIRCULAR SENT TO ALL.

In the presidential contest of 1880 he said that assessment circulars were presented to every person on the federal pay roll, high and low, from the humblest page on the floor of the house to a cabinet minister; to postmasters, unfortunate women in the department, toilers by sea and lighthouse, and teachers at the Carlisle Indian school. All, of every age, sex or condition, were brought to the book, until this continent fairly rang with denunciation of these infamous practices, of which the gentleman from Iowa has been in blissful oblivion, then and ever since and now. [Laughter and applause.] Now, sir, the manifest attempt on the part of our friend is to put us in the attitude of causelessly refusing to arm and equip an American navy, that shall be commensurate with the dignity and grandeur of this country. It will not do, Mr. Chairman. What is there in the past history of your party to afford us any security that the proposed appropriation will not be squandered, as you have done heretofore? In the past ten years we gave you money with unstinted liberality, enough to build the finest navy afloat, which was spoliation, theft and maladministration."

BELFORD SUPPRESSED.

Belford—May I ask the gentleman from California a question?

Henley—I am always glad to hear from the gentleman from Colorado.

Belford—Don't you know that during the administration of James Buchanan those same practices were tolerated and encouraged by the democratic party?

Henley—Mr. Chairman, that was before my voting days, but at that time the gentleman from Colorado was a democrat, and what the party might or might not have done under the inspiration of such members, the Lord knows.

This retort on Belford, who is an inveterate joker himself, brought down the house, and amid shouts of laughter and applause the Colorado statesman retired to his seat before the confusion subsided, and his speech was not concluded.

TO PROHIBIT CONTRACT LABOR.

Synopsis of the Measure Reported Favorably by the Senate Committee.

WASHINGTON, April 25.—The bill to protect American laborers, reported favorably from the senate committee on education and labor by George, provides that the importation or immigration from any foreign country into any place within the jurisdiction of the United States of any alien, under any agreement, expressed or implied, that such alien shall work or labor for, or in any wise serve in said jurisdiction any person or corporation, shall hereafter be prohibited; that every such agreement shall be considered null and void; that any advance of the cost of transportation, or any part thereof, or any agreement to pay or secure such transportation of any alien to any place within the jurisdiction of the United States, made by any person engaged in mining, manufacturing, building or transportation, or by any corporation whatever, shall hereafter be prohibited.

It provides a penalty of $500 for each and every violation of these provisions, and that it shall be a misdemeanor, punishable by a fine of $1000 and disqualification from holding office under the United States, for any person, while in the official service of the United States, to violate any of the provisions of the act, or knowingly aid and encourage such violations.

OTHER PROVISIONS.

It also provides that it shall be a misdemeanor for a master or other officer of a vessel of American registry knowingly to bring from any foreign country into the United States any alien who is under the agreement prohibited by this act, and that such misdemeanor shall be punishable by a fine of not more than $1000 for each and every alien so transported on his vessel.

The act shall not be so construed as to prevent any citizens of a foreign country from coming into the United States, or from bringing with him servants for personal service or convenience to his family, nor from preventing any such foreigner, while temporarily residing in the United States, from bringing such servants, and it shall not be construed to apply to the employment of sailors and seamen on vessels engaged in foreign commerce.

If any person or corporation shall complain to the president of the United States that he or it is engaged in, or is about to start a business requiring skilled labor of a particular kind, and that a sufficient quantity of such skilled labor cannot be obtained in the United States, the president may, on being satisfied of the truth thereof, issue license to such person or corporation being unaffected by this act, to import such skilled labor, specifying the kind of skilled labor and the number of artisans permitted to be brought into the United States.

RAILROAD NOTES.

A STATEMENT BY OAKES.

NEW YORK, April 25.—[Special.]—Vice President Oakes says in the *Evening Post*: "Northern Pacific business has been very satisfactory during the last three weeks. Immigration to Dakota and the Pacific coast far exceeds expectations. Our trains are hauling westward daily from 200 to 800 people. The average would be about 500 daily. About 200 seek Dakota, about 100 the Coeur d'Alene mines, and about 150 other points in Montana and Idaho. The remainder go to eastern Washington and the Pacific coast, in the proportion of about one-third to eastern Washington and two-thirds west of the mountains. About 500 miners are working along Prickly Pear creek, taking out from $5,000 to $10,000 in gold daily. This information we get from bankers at Helena, Missoula and Pelican. I still adhere to my previous estimates that the gross earnings of the road for the first twelve months after its completion will aggregate near $15,000,000. The gross earnings for the fiscal year ending June 30, 1884, will reach between $12,000,000 and $13,000,000. My estimate of the earnings for April was $1,200,000. The actual figures, I think, will go $200,000 better."

THE TROUBLES ALMOST ADJUSTED.

CHICAGO, April 25.—The conference between the Burlington and the Union Pacific officials and representatives of roads in the western trunk line association was concluded this afternoon. The main details for an amicable adjustment of the present difficulties were agreed upon, provided the Union Pacific and the Burlington can settle the matter of percentages for pooling competitive Colorado and Nebraska business, and adjournment was taken to give them an opportunity to do so.

CONSTRUCTION AUTHORIZED.

NEW YORK, April 25.—The Richmond and Danville directors have authorized the construction of the Columbus Gap extension, on the Georgia Pacific railway.

THE FIRE RECORD.

SAGAMORE COTTON MILL BURNED.

FALL RIVER, April 25.—Last night Sagamore mill No. 1, in the northern part of the city, caught fire in the basement. This portion was used as a store room for cotton, and contained several hundred bales. This cotton was on fire in three places, when first found, leaving little doubt that the fire was an incendiarism. The flames climbed the elevator shaft and through the tower to the stories above, and the whole interior of the mills was soon a mass of flames. The roof finally fell, carrying the remaining floors to the basement; then the south half of the east wall fell with a tremendous crash into the huge furnace of flames. The mill is a total loss. The loss will amount to about $600,000; insurance $500,000. The mill destroyed ran about 40,000 spindles and 10,000 looms, and furnished employment to about 500 hands, with a weekly pay roll of $5000. The Sagamore was one of the ten mills struck by spinners twelve weeks ago, and was the one against which the efforts of the strikers were mainly directed. Notwithstanding the strike the mill has been kept steadily in operation, and to-day nearly the full complement of machinery was running.

THE PRIZE RING.

A REMARKABLE PRIZE FIGHT.

PITTSBURG, PA., April 25.—One of the most remarkable prize fights ever occurring in this city or vicinity, took place last night at Arsenal park between B. Jack and Jack Clifford for $100 a side. Previous to the battle a ball had been in progress, in which over thirty young girls and several mothers with infants in arms were participants. When time was called, at 10:30, the women, as well as men, crowded around the ring, and during the fight the former were most enthusiastic in their shouts for their respective favorites. The fight was with soft gloves to a finish, London prize ring rules. From the start Clifford, who displayed the most science, had the best of it, and soon had the battle well in hand. Jack fought savagely, however, and refused to give up until the hundred and twenty first round, when friends interfered and the "mill" was awarded Clifford. Both men were terribly punished. Jack had to be carried from the ring. A number of policemen watched the fight to its close without interfering. The battle lasted one hour and forty-five minutes.

DOMESTIC DISPATCHES.

Political News and Gossip from the Various States.

PRESS COMMENT ON THE UTICA CONVENTION.

Sharp Advance in the Price of Wheat at New York—Northern Pacific Stocks Close Higher—General News Notes.

The New York Press.

THE "TRIBUNE."

NEW YORK, April 25.—[Special.]—The *Tribune*, continuing its remarks on the New York convention, says: "The prestige of the victory is worth more to Edmunds than the actual gain of four votes. It was shown, indeed, that Edmunds had less than 100 votes in the convention, and was in fact a remote third in the race; but it also appeared that the administration, in case of its own defeat, was behind him. The victory, due wholly to the co-operation of the enemy they have been most bitterly denouncing, cannot be wholly agreeable to the more thoughtful of the Edmunds men, and the promised coalition for the rest of the campaign is not an imposing spectacle; but it is a game of politics that is thoroughly practical. The selection of New York delegates to Chicago is now complete. The 72 votes of the state are divided as follows: For Blaine 29, for Arthur 25, for Edmunds 14; against Arthur, but without avowed preference, 4. The task of making up this delegation, under the new system ordered at the last national convention, has been accomplished with less friction than had been feared. The Utica convention leaves no serious wounds to be healed, and as far as we can see there is nothing to prevent the more hearty union of New York republicans this fall than we have had for years."

THE "TIMES."

The *Times* adds: "Had the outcome of the Utica convention been different; had the Arthur men, instead of Blaine's followers, tasted the bitterness of utter defeat, the administration element in the presidential contest would have been eliminated. Arthur's workers would have cut a sorry figure at Chicago with the marks of their drubbing in Arthur's own state still raw and red upon their faces. Spared the humiliation of a dreaded defeat, and elated with their half victory, they will now ride into Chicago fully abreast of their Edmunds allies, and we fear a little ahead. It is not difficult to account for the choice made by O'Neill, Roosevelt and their friends between two solicitors for their aid. Many of them are conscientiously in favor of Arthur as their second choice; many more are quite as conscientiously opposed to Blaine, first, last and all the time. In such a temper they easily yielded to the concurrent impulses of their sympathies and their antipathies. As a body, too, they were doubtless moved in some degree by the Blaine scare. They were deafened by the terrible hallooing of the always wildly enthusiastic coterie of the man from Maine, and blinded by the prodigious dust they kicked up."

THE "STAR."

The *Star*, John Kelly's organ, says: "Chester A. Arthur is not the presidential choice of the majority of his party in his own state. It is a significant, and to Arthur a humiliating spectacle. It was only through the abject surrender of Arthur's adherents to the Edmunds contingent that the convention yesterday was saved from being turned into a positive ovation for Blaine. This, happening in New York, is but a slight shock to Blaine, as it is an irretrievable reverse to Arthur. With regard to Blaine, what occurred at Utica is likely to be repeated at Chicago on a more extensive scale. Of the Maine statesman, it was paradoxically said, four years ago, that his strength was his weakness. So formidable is his popularity now, and so conspicuous is his gain upon his competitors, that the latter subordinate their rivalries and pool their resources in order to defeat him. Except in the southern states, which have not lately furnished many republican votes to the electoral college, Blaine's is a name with which all other republican presidential booms are steadily antagonized. He worries Sherman in Ohio, jostles Logan in Illinois, elicits undivided enthusiasm in Pennsylvania and extinguishes Arthur in New York. Consequently the enmity of all will crystallize against him and may not improbably divert the nomination to a 'dark horse.' The sentimental movement in favor of Edmunds does not promise to force that gentleman to the front at any remarkable pace. He will be used as a make-weight, to handicap or aid other contestants, but at the end of every roll call of delegates will be found away down close to the 'scattering' level."

THE "SUN."

The *Sun* is silent, as usual. Its correspondent says: Ex-Arthur men are all talking about Lincoln as the coming man. Blaine men say the cry is worth means Blaine or Lincoln.

Political Notes.

GREENBACKERS IN CONVENTION.

LYNN, MASS., April 25.—The greenback state convention met and elected delegates at large to the national greenback convention at Indianapolis. The platform endorses the recent decision of the United States supreme court in regard to the power of congress to issue legal tender money in time of peace; declares that the function of issuing money should be taken from the banks and exercised by the government; that railways and other monopolies should be regulated by the government for the benefit of the people; that labor should be protected by national and state authority so as to equalize burdens and insure a just distribution of its results; ratifies the Chicago platform of 1880, and favors the nomination of Gen. Butler for president.

The platform recommends that a plank be incorporated into the platform of the national convention advocating that all lands granted to railroads, whether earned or unearned, shall revert to the national government; that convict labor shall not be allowed to conflict with honest free labor; that courts of arbitration for the settlement of disputes between employers and employes be established; that eight hours shall constitute a day's work in all public and private industries, and that a national law be enacted prohibiting the holding or ownership of land by aliens.

STATE GREENBACK CONVENTION.

LEWISTON, MAINE, April 25.—At the state greenback convention, to-day, four delegates at large were chosen to the national convention. Resolutions declaring that the government alone should exercise the function of issuing all currency, and against monopolies, and that General Butler should be president, were unanimously approved, and the platform of the Chicago convention of 1880 ratified. Delegates to the national convention for the several districts were chosen. Adjourned.

CALL TO FORM A LEAGUE.

BOSTON, April 25.—Charles Francis Adams, Jr., John Quincy Adams, Charles R. Codman and some 700 others have issued a call for a meeting here April 29, to form a league. The call says: "The present enormous surplus in national revenue is demoralizing and dangerous; that it should be cut down without further delay, not by increasing the public expenditure, but by lessening the burden of taxation; that this burden should be removed from the necessaries of life, and not from whisky and tobacco; and that the policy of taxing imports not for the purpose of raising revenue, but for obstructing trade, is unsound and must ultimately be abandoned."

LOGAN AGAINST LINCOLN.

NEW YORK, April 25.—[Special.]—Sun's Washington: It is reported that Logan has determined to do the Lincoln boom all the harm he can. Logan avers that he held offered him the place of secretary of war, and that he declined and recommended Lincoln, and that Lincoln has broken his promises to Logan when he went into the cabinet, not to permit anything to be done that would antagonize Logan's strength in Illinois by promoting his own political prospects. Logan refuses to speak to Lincoln, and expects to be able to defeat his nomination for vice president.

HE WAS "A LIAR."

NEW YORK, April 25.—The resolution offered in the Seventeenth congressional district convention recommending the nomination of Arthur for president, excited John P. Frazer to insinuate that General Arthur was in a degree answerable for President Garfield's death. A dozen members leaped to their feet and shouted that he was a liar and not fit to be a member of the party. The resolution was then adopted.

ELECTION RETURNS.

NEW ORLEANS, April 25.—Returns so far from various sections of the state indicate that there is a majority of 50,000 for the democratic state ticket and also the adoption of all the constitutional amendments. Returns for this city are not complete, but the majority for the regular democratic ticket approximates 15,000.

AN INCREASE FOR BLAINE.

PHILADELPHIA, April 25.—[Special.]—The *Press* figures Blaine an increase of fifty-nine votes in New York, Pennsylvania and Ohio over his vote from these states in the last national convention.

Delegates Elected.

ARIZONA FOR BLAINE.

PHOENIX, April 25.—The republican convention to-day appointed delegates to the Chicago convention instructed for Blaine.

FOR ARTHUR AND LINCOLN.

NEW YORK, April 25.—Bennett's evening paper, the *Telegram*, comes out to-day with Arthur and Lincoln at the head of its columns.

A Lottery Company Weakens.

LOUISVILLE, April 25.—The Henry College lottery, which has been having so much trouble with the postal authorities, has suspended operations. The officers claim that the lottery could not be operated under the existing laws. The company is supposed to have lost considerable money.

Chicago Grain Market.

CHICAGO, April 25.—Wheat opened firm, but weaker, and broke badly for long deliveries; 91½c for April; 94c for May. Corn, easier and lower at 52⅝c for April, 53⅝@53¾c for May. Oats steady at 32⅜c for April, 33@33⅛c for May.

New Season Salmon.

NEW YORK, April 24.—[Special.]—New season salmon, packed April 1 at Eagle Cliff, Oregon, has been received in this city by the Northern Pacific as ordinary freight. Former shipments by way of San Francisco took thirty-eight days.

Cattle Disease in Pennsylvania.

PITTSBURG, April 25.—A disease resembling pleuro-pneumonia has broken out among cattle in Washington county. Veterinary surgeons pronounce it contagious, and have recommended Governor Pattison to quarantine the district.

A Will Contest.

BOSTON, April 25.—The will of Mrs. Valeria G. Stone of Malden, who left about $250,000 for religious and charitable purposes, has been admitted to probate. The heirs have appealed.

Lundborg's Perfume, Edenia.
Lundborg's Perfume, Marechal Niel Rose.
Lundborg's Perfume, Alpine Violet.
Lundborg's Perfume, Lily of the Valley.

Enclose 10 cents and the address of an eastern friend to this office, for the statistical OREGONIAN. The best medium to circulate in the east.

The Advance in Wheat.

NEW YORK, April 25.—The *Journal of Commerce's* report of the produce market, Friday, contains the following: "Wheat opened with unusual activity and remarkable buoyancy. The price was hardly regarded in the anxiety to buy, and a very rapid upward movement took place. One or two parties were the main buyers, and at certain prices which represented the market. At one time one party was taking all that was offered. Early the market was up 4½@5¼ cents for May and June, 2 cents on July, and 1½ cents on August. Afterward there was a break of 1½@2, rallying again to the highest, but drooping toward the close ⅜@⅝ cents, and closing irregular. There was some talk of trouble in meeting margins on the part of one or two of the smaller operators, which had little influence. While some parties have faith in the stability of the market the 'shorts' are nervous, and they hurry into cover when large buyers take hold. Spot lots were up two points, keeping exporters out. Spring grades were 1½@2 higher, and scarce, with moderate demand. The transactions were 146,000 bushels for prompt and early deliveries, and 968,000 bushels, options. Western flour buyers were more numerous and sellers were indifferent."

Sargent's Proposed Successor.

PHILADELPHIA, April 25.—Colonel M. Richard Muckle of the *Ledger*, mentioned as American minister to Berlin, says, if offered the position, he would have to take the matter into consideration, in view of domestic business matters. Col. Muckle speaks the German language, and was first brought into correspondence with the government of Germany through his efforts to relieve distressed widows and orphans of those slain in the war with France, when nearly $50,000 was sent to Germany.

A Wild Statement.

NEW YORK, April 25.—[Special.]—A Portland, Oregon, correspondent writes to the *Sun*: "As for land to take up, it is very scarce. There are several thousand people in this country now who are unable to obtain employment at any price. Men are selling land far superior to land here for $40 and $50 per acre, and are coming out here to pay $100 per acre for unimproved land. Men who labor for their living are compelled to compete with Chinese, who work for a mere trifle."

Will Hardly Accept.

ST. LOUIS, April 25.—It is reported here that Governor Crittenden has appointed General William T. Sherman brigadier general for the eastern district of Missouri, but up to a late hour to-night it could not be ascertained that the general had received the appointment. As there are legal obstacles in the way of the general accepting the position it may be safely stated that he will decline the proffer. As a matter of fact he has already said he would not accept.

Ex-Minister Partridge's Will.

BALTIMORE, April 25.—The will of the late ex-Minister James R. Partridge has been filed for probate. He left his entire estate to two sisters, and after their death and the death of all their survivors, to the Protestant Episcopal church home and infirmary, and the Emmanuel church home; to be known as the "Annie Mary Partridge fund," in memory of his wife, and to be used for the support of indigent sewing girls.

The Colorado Massacre.

DENVER, April 25.—No news from Mitchell's ranch has been received to-day. Ketchum's command left Fort Lewis early this morning. Until its arrival nothing is expected. The causes which led to the fight are entirely local difficulties, and will, no doubt, be amicably settled upon the arrival of troops. A special to the *Tribune* says that in the fight two Indians were killed and two wounded, instead of one as reported.

Wool Markets.

PHILADELPHIA, April 25.—Wool, quiet and unchanged.

BOSTON, April 25.—Wool, in moderate demand; fine fleece, 35@40c; Michigan, 33@35, combing and delaine, 35@40c; California, 12@32c; for fall and spring pulled, 35@40c.

A Strike Ended.

BUFFALO, April 25.—Strikers at the stove foundry of Sherman & Jewett have resumed work at a 15 per cent. reduction in wages. They became satisfied, after a conference with the firm, that the reduction was necessary.

IN WALL STREET.

The Northern Pacific Shares Close Higher—Quotations.

NEW YORK, April 25.—Governments, firm; Railways, lower. At the stock exchange there was great excitement in Reading and Jersey Central and a marked depression in prices of these stocks. Transactions in Reading reached the enormous total of 115,000 shares. Reading opened a fraction higher at 45, but fell off to 43¼, rallied again to 44⅛ and broke to 41⅛. Jersey Central sold down from 82⅞ to 81, recovered to 81½, and broke to 77. The heavy selling in this stock was brought about by reports that Reading was financially embarrassed and would have to sacrifice some securities in its treasury to meet a pressing demand. In later dealings Jersey Central rallied to 79¼@79⅜, and Reading to 43⅜@44⅞.

In other active shares the market was comparatively steady throughout, except a slight decline early in the day, closing firm. Northern Pacific and Oregon Transcontinental are higher. Northern Pacific rising 1½ to 21¼, preferred to 47⅜, and Oregon and Transcontinental 1 to 16¾.

The strength in Union Pacific is attributed to dispatches from Chicago, which stated that the Chicago, Burlington and Quincy tripartite conference had been harmonious, and that the questions under discussion were nearer settlement than at any time since negotiations opened.

Central Pacific ⅜, Union Pacific ⅞, Oregon and Transcontinental ¾, Northern Pacific 1¼ and Northern Pacific preferred ½ per cent. higher at close than at yesterday's close. Oregon Improvement rose 1, Manitoba ¼, Oregon Navigation dropped 1 and rallied to 70.

Specie engagements for Saturday's steamers are $1,750,000, bars and coin.

MONEY, BONDS AND STOCKS.

NEW YORK, April 25.—Money easy at 2; closed offered 1½. Prime mercantile paper, 5@5½; sterling exchange, bankers' bills, steady at $4 87½; sterling exchange, demand, $4 89¼; dry goods imports for the week, $1,516,000.

Bonds—3s, 100; 4½s, 113¾; 4s, 122⅞; Pacific 6s, 123.

Stocks—American Express 96, Canadian Pacific 46½, Canada Southern 37, Central Pacific 56, Chicago, Burlington & Quincy 118¾, Denver & Rio Grande 14⅛, Erie 18⅛, Hannibal & St. Joe 35¼, Kansas and Texas 15¼, Lake Shore 96¾, Louisville & Nashville 40⅛, Michigan Central 86, Northern Pacific 21, Northern Pacific preferred 47, Northwestern 113⅛, New York Central 14, Oregon Navigation 70, Oregon and Transcontinental 16¾, Oregon Improvement 31, Pacific Mail 43¾, Panama 98, Rock Island 113¾, St. Paul 83¼, Texas Pacific 15¼, Union Pacific 67⅝, U. S. Express 50, Fargo 111, Western Union 65⅝.

CRIMINAL CALENDAR.

VERDICT OF NOT GUILTY.

HOT SPRINGS, ARK., April 25.—The first trial in connection with the bloody street fight of February 9, between the Doran and the Flynn factions, ended to-day. S. A. Doran, D. R. Pruitt, R. L. Lorenzo, J. Laclera, John Allison, Robert Pruitt and G. B. Ellison were tried for murder in the first degree, for killing Frank Hall, a hackman, driving the Flynn party when the encounter occurred. The jury after two hours rendered a verdict of "not guilty." The pronouncement was received with applause. The same parties are still to be tried on indictments for murder in the first degree for killing John Flynn, and assault with intent to kill Frank and William Flynn, but to-day's verdict will probably be repeated. Frank and William Flynn will then be tried.

VERDICT OF NOT GUILTY FOR FRANK JAMES.

CHATTANOOGA, TENN., April 25.—The trial of Frank James at Huntsville, Alabama, for complicity in the Mussel Shoals robbery in 1881 was concluded to-day with a verdict of not guilty. The court house was packed. The verdict was greeted with cheers. James was at once rearrested by the sheriff of Cooper county, Missouri.

HUNTSVILLE, ALA., April 25.—At once upon the announcement of the finish of Frank James' cases, Sheriff Rogers of Cooper county, Missouri, arrested James under the indictment pending at Boonville for train robbery. It is understood that Minnesota officers were here awaiting to arrest him for an indictment for the Stillwater bank robbery and murder, but were anticipated by Rogers, who sat immediately behind the defendant. The latter leaves for Missouri with his wife to-night.

ATROCIOUS MURDER.

KNOXVILLE, TENN., April 25.—The *Tribune* has information that in Russell county, Va., last Sunday, Geo. Gibson, his cousin, Wm. Gibson, Jonas Powers and Wayne Powers bought a bucket of brandy in the mountains and got into a dispute about who had paid most for it. Knives and pistols were drawn and Wm. Gibson was shot and killed. The other three built a fire over the body, burning it to a crisp. The three murderers were jailed. With great difficulty a lynching was prevented. The people are terribly aroused and the murderers may yet be taken from jail and hanged.

LIQUOR SELLERS INDICTED.

PHILADELPHIA, April 25.—The grand jury has returned true bills against a number of persons occupying booths in the vicinity of Barnum's show, for selling liquors without license. The mayor asked if the district attorney could submit an indictment against Barnum. He claimed Barnum was the cause of all the nuisances and annoyances, and that the show was a public nuisance.

CONFESSED UNDER DURESS.

KANSAS CITY, April 25.—*Times'* Harrisonville, Missouri, special: While Deputy Sheriff J. B. Hurley was conveying W. Fink from Pleasant Hill to this place, a party of men took the prisoner from the officer and strung him up several times, until he confessed to have murdered Carson at Pleasant Hill in February last. They then returned him to the deputy, and the prisoner is now in jail.

ARMED WITH A REQUISITION.

ST. LOUIS, April 25.—A Versailles, Mo., special says it is reported that Sheriff Rogers, of Cooper county, is now in Huntsville, Ala., armed with a requisition from Governor Crittenden for the arrest of Frank James, on a charge of participation in the Otterville train robbery.

A MURDERER CONVICTED.

HUNTER'S POINT, April 25.—Charles W. Rugg, the Long Island assassin, was to-day found guilty of the murder of Mrs. Maybee and daughter, at Oyster Bay. A motion for a new trial was denied. He will be sentenced Monday.

ITALY.

MURDERERS' CLUB BROKEN UP.

ROME, April 25.—The Sicilian police have discovered a remarkable murderers' club near Palermo, consisting of fifty-nine members, pledged to murder for common advantage and profit. The murderers undertook to execute private vengeance for hire. A branch club consisting of forty-five members organized at Sciarizze. Within a few months the latter club alone killed thirty persons. Members of both clubs are imprisoned at Palermo, and will be tried in May.

Don't Die in the House. "Rough on Rats" clears out rats, mice, flies, roaches, bed-bugs. 15c.

Proceedings of Various Republican County Conventions.

TICKETS NOMINATED AND DELEGATES ELECTED

Full Proceedings of the Marion County Convention—News Items from San Francisco—Etc.

Marion County Republican Convention.

SALEM, April 25.—[Special.]—The republican county convention for Marion county met pursuant to call at Reed's opera house at 8 o'clock last evening, and was called to order by Captain L. S. Scott, chairman of the county central committee.

E. A. Downing, holding a proxy for W. G. Stanton, moved that Captain L. S. Scott be elected temporary chairman.

George H. Burnett placed in nomination M. L. Jones, of Brooks, and a ballot being taken Mr. Jones was elected by the following vote: Jones 76, Scott 63. Lewis Brakney, of Turner, was elected temporary secretary by a unanimous vote.

The following committees were then appointed:

On Credentials—W. L. Wade, C. D. Monroe, W. H. Simpson, J. B. Looney and T. M. Blackerby.

On Resolutions—William Collard, J. H. Bridges, and W. A. Cusick.

On Appointment of State Delegates—G. H. Burnett, J. M. Harrison, John Shaw, W. T. Clark and Lafe Kaiser.

On Permanent Organization—L. H. Poujade, H. Smith, and Alex. Thompson.

On Order of Business (each delegation selecting one)—Lafe Kaiser, E. A. Downing, J. W. Jory, D. Simpson, N. O. Parker, J. Stephens, S. Layman, Al Coolidge, E. C. Hall, Mc L. Mitchell, John Grim, jr., John Shaw, E. C. Pomeroy, W. F. Eastham, William Smith, L. Easterbrook, A. G. Perkins, S. Condit, John Looney, A. Moser, John Grim, H. A. Johnson, J. B. Dimick, John Hoefer and William Case.

The committee on credentials having submitted a report, which was adopted, the convention adjourned until 9 A. M. to-day.

FRIDAY'S PROCEEDINGS.

The convention was called to order at 9 A. M.

The committee on permanent organization reported in favor of making temporary officers permanent officers of the convention, which motion prevailed.

The committee on resolutions submitted the following report, which was adopted:

The republicans of Marion county firmly adhere to the doctrine that it is the duty of congress and of the several states of this Union to maintain inviolate equal legal rights to all citizens, and that exclusive privileges should be given to none, so that all citizens shall stand equal before the law; therefore, be it

Resolved, First—That the burdens of taxation should be laid on all property alike according to its value. Second—That the principles sought to be enforced by the "mortgage tax law" are just; and that so far as its provisions have been carried out in practice, it has tended to equalize the burdens of taxation, and has subjected large amounts of property to taxation, which had formerly escaped the vigilance of the assessors. Third—That the railroad corporations in many of the states of the Union do tax the people without legal limit, and that it is the practice of many of these corporations to tax the people all the traffic will bear. Fourth—That congress has the constitutional power to regulate the tariffs and fix the freights and fares on interstate railroads, and that it is the duty of that body to legislate on this subject and relieve the people from unjust exactions now levied upon them. Fifth—That this state has the power to and should regulate freights and fares and prevent unjust discriminations within its borders. Sixth—That all railroad corporations in this state should be required by law to report to an officer of the state the cost of construction of their roads and the gross and net earnings of the same.

NOMINATIONS.

The committee on order of business, having reported in favor of commencing at head of ticket, the following names were placed in nomination for the office of county clerk: W. N. Chapman and W. H. Waters of Salem and I. M. Sparrow of Jefferson. M. W. Hunt having been elected assistant secretary, the ballot was taken with the following result: Chapman 12, Waters 67, Sparrow 1, and Chapman was declared the nominee.

The following persons were put in nomination for the office of sheriff: John W. Minto, M. H. Hibbard of Salem, R. W. Smith of Turner, John C. Booth of Salem and R. J. Grim of Butteville. First ballot: Minto 32, Harbord 45, Smith 29, Booth 19, Grim 1.

At the conclusion of the ballot Captain Scott stated that, at a meeting of the factions supporting Messrs. Waters and Harbord held last evening, it was agreed by them that in case either was nominated this morning they would withdraw from further contest, [illegible]. Mr. Burnett objected, stating that inasmuch as the delegates had been selected for the purpose of nominating a county ticket, and the nomination had already been effected, that the convention should not be bound by any such agreement. [illegible]. He had entire confidence in the good judgment of the delegates present, and felt confident that they would nominate a ticket that would be in every way worthy of an unquestioned support of every good republican at the polls in June next, and that nothing could be accomplished by an adjournment that could in any way effect any good results.

The motion to adjourn was lost by an overwhelming vote and the convention at once proceeded to take the second ballot: Minto 39, Harbord 43, Booth 17, and Smith 11.

Another effort was made to adjourn without result, and the third ballot resulted in Minto's nomination by the following vote, there being 122 delegates in the convention, Smith's name having been withdrawn: Minto 67, Harbord 42, Booth 13. A motion being made to adjourn until 1 o'clock P. M. was carried almost unanimously.

AFTERNOON SESSION.

The convention reassembled in the afternoon, and completed the nominations as follows: For representatives, A. N. Gilbert and W. A. Cusick of Salem, Dr. Flynn of Gervais, Al Coolidge of Silverton, Lewis Blackney of Turner, Alex Downing of Sublimity; delegates to the state convention, George H. Burnett, J. A. Gray, G. H. Minto, Fabry O. Ferrine, W. E. Wade, E. M. Croisan, John B. Looney, George H. Turner, John A. Baker, M. L. Jones, H. B. Beezy, A. H. Johnson, John B. Dimick, William Sherl, N. M. Eastman, William Smith, McKinley Mitchell and Jacob Voorhees; treasurer, August Gesy of Aurora; assessor, A. M. Cornelius of Woodburn; coroner, Dr. W. Waters of Salem; commissioner, W. C. Hubbard; school superintendent, Geo. A. Peebles.

The ticket is regarded as an exceptionally strong one, and will, it is generally conceded, prove entirely satisfactory to all the contending factions. It was made up of the best material in the convention. [illegible].

Columbia County Republicans.

ST. HELENS, April 25.—[Special.]—The republican county convention of Columbia county met in the court house in this place yesterday afternoon at 2 o'clock, nominating J. J. Cole for representative, N. C. Dale for county clerk, J. C. Watts for sheriff, Richard Cox county treasurer, J. N. Sawyer assessor, E. R. Quick school superintendent, Thomas S. Wilkes surveyor, Dr. J. W. Mesorve coroner.

The convention also elected W. H. Conyers, F. A. Moore, J. R. French and D. C. Bradford as delegates to the state convention, and M. Fourey, T. A. Moore and L. C. Milner county central committee.

The delegates to the state convention were instructed to exert every honorable means to secure the nomination of Hon. G. W. McBride for representative to congress.

Umatilla County Republican Convention.

PENDLETON, April 25.—[Special.]—The republican convention yesterday nominated the following ticket: Representatives, H. G. Gay and F. O. Vincent; sheriff, William Martin; clerk, J. P. Bushee; treasurer, N. Hendrix; county judge, N. J. Bean; assessor, William Stafford; school superintendent, left vacant; commissioners, B. Probstel and J. H. Koontz; surveyor, E. L. Burt; coroner, Dr. W. McKay; delegates to the state convention, J. E. Bean, H. L. Marston, J. H. McCoy, Charles McMorris, H. Fleckenger, P. L. Paine, J. H. Koontz, J. F. Lunn, J. Froebel and William Stafford.

The resolutions adopted favor forfeiture of unearned land grants, the repeal of the usury law, taxation of foreign capital, fixed salaries of county officers, instead of fees, the early completion of the Cascade locks, and a new county in the west end of Umatilla, and oppose the increase of the salaries of the governor and judges. The candidates for sheriff, clerk, treasurer and coroner are renominated.

Klamath County Delegates.

LINKVILLE, Or., April 24.—[Special correspondence.]—The republican county convention for Klamath county was held in Linkville on the 19th, and elected R. A. Emmitt and O. S. Moore delegates to the state convention. Adjourned to meet again on May 10, for the purpose of nominating a full county ticket.

The Sharon Divorce Case.

SAN FRANCISCO, April 25.—In the Sharon divorce case yesterday Mr. Hyde, attorney at law and expert in handwriting, was recalled, and several letters alleged to have been written by defendant, Sharon, to plaintiff, Miss Hill, were submitted to his microscopic inspection. He said that the space on the paper which bears the words "my dear wife" showed evidence of being touched by a rubber or some other substance. He also found in the spaces between the letters particles of plumbago. He qualified this statement that although his glass magnified 4900 times the particles were very small, and that it was difficult to determine, without a much longer examination, and one made with lenses of a higher power, whether these particles belonged to the present writing or some erased writing. Mr. Tyler wanted the expert to show the court where the erasures were, but he replied that the court might look, and still be unable to see the place. Mr. Barnes then passed letter No. 12, written by Sarah Althea, to the expert, asking him to compare a "w" in that with the "w" in the "wife" of the preceding letters. The expert declared that in the two "w's" "we" were made by the same hand. Mr. Tyler maintained that Mr. Hyde was clearly incompetent to act as an expert. He was employed in the case and came prepared. He was disqualified, being prejudiced.

SAN FRANCISCO, April 25.—Ex-Senator Sharon left Tucson for Washington to-day.

CALIFORNIA.

Cowardly Assault.

A cowardly attack on T. W. Shepherd, superintendent of the Jewish cemetery, is reported this evening. The assault is attributed to agents of Asa M. Bowen, who formerly occupied the position of superintendent. Shepherd was badly beaten, and stabbed twice in the left hip and once in the side. Several arrests have been made.

Shipping Intelligence.

Arrived—Steamer St. Paul, Erskine, 11 days from Oonalaska, passengers and merchandise, to Alaska Commercial Company. Cleared—Br ship Barnard Castle, Smith, Nanaimo; E. Duranteau & Sons; ship Otago, Reed, Port Townsend; Hesper, Holmes & Co., ship City of Brooklyn, Swan, Port Townsend; Charles H. Wells. Sailed—Sh Republic, Holmes, Port Townsend.

Heavy Failure.

SAN FRANCISCO, April 25.—Hatch & Barclay, commission merchants, failed to-day. Liabilities, $270,000; nominal assets, $171,000. The two principal creditors are Donohoe, Kelly & Co., for $55,000, secured for $2,000, and the Pacific bank, $26,000, secured for $10,000.

GERMANY.

GERMANY IN NO HASTE.

BERLIN, April 25.—[Special.]—On account of England not having sufficiently honored the German interests in the Fiji Islands, Germany will, it is said, be in no hurry to recognize the Congo treaty. If she does so at all Nachtigal's mission to the west coast of Africa, and his reports thereon, will form the basis for Germany's decision. It is well known in official circles that Bismarck has the utmost contempt for Gladstone's ability as a statesman, and regards him only as a "parliamentarian," eloquent theorist and "literateur." The chancellor watches with the keenest interest events in Egypt, and seems to believe that Egypt is a barometer by which soon will be gauged England's actual relative position among the family of nations.

CONDITION OF THE EMPEROR AND EMPRESS.

BERLIN, April 25.—The emperor keeps to his room, but continues to receive visitors and work throughout the day. The condition of the empress causes the gravest disquiet in court circles, in which her death is considered a matter of only a few weeks. The emperor's journey to Wiesbaden has been postponed until May, on account of the illness of the empress. Before his departure he will lay the foundation stone of the new parliament house.

OVER-PRODUCTION IN PRUSSIA.

BERLIN, April 25.—The proprietors of Tedder Steel works of Prussia, including Krupp, inform the workmen that over-production compels them to reduce the number of working hours. There are some threats to stop their works.

VON MOLTKE ILL.

BERLIN, April 25.—Von Moltke is ill with catarrh of the lungs. He has obtained a long leave of absence, and will retire to his estates in Silesia. He retains nominal command of his staff.

THE STAGE.

SEEKING HER GEM OF STYLE.

NEW YORK, April 25.—[Special.]—At the conclusion of the opera of "Semiramide" to-night Patti will sing "Home, Sweet Home," as a farewell to her audience. As soon as the curtain falls she will be driven directly to the steamship Oregon. Friends and admirers to the number of 1500, headed by the Seventh regiment, will escort Patti to the steamer. The Oregon will sail at 5 o'clock to-morrow morning.

FRANCE.

RENOUNCES HER FISHING RIGHTS.

PARIS, April 25.—The Anglo-French commission to regulate the Newfoundland fisheries has terminated its labors. France renounces her right to fishing in certain bays and islands, and will exercise strict supervision over places where the former treaties empower French subjects to fish.

MADAGASCAR.

PEACE PROBABLE.

LONDON, April 25.—Advices from Tamatave say a French flag of truce to Madagascar, with modified terms for a treaty of peace, is now probable.

ACCIDENTS.

A LAWYER CRUSHED TO DEATH.

DENVER, April 25.—M. A. McDonald, a prominent lawyer of Denver, was crushed to death between cars at Coal Creek to-day.

NOTES FROM BELKNAP.

BELKNAP, Mont., April 22.

To the Editor of the OREGONIAN:

Having read several newspaper articles which do our new town great injustice, permit me to send you a statement of facts, which I trust you will find space for in the columns of THE OREGONIAN. It is known that it is well situated on a large tract of land which rises eastwardly a distance of one and a half miles toward the Clark's Fork river. Having spent nearly seven years in this country, I can safely say that no town in Montana has had a more surprising and rapid growth. The streets are eighty and sixty feet wide, and we have now, according to the report of Bradstreet's Western agent, just fifty-seven business houses in active operation. During the past four weeks Savage & Reed, acting as agents for Small & Ellis' saw mills, have sold and delivered here at the depot over 150,000 feet of lumber. This, in addition to the large output of our local saw mill, has all been used for buildings which have been erected in the past few weeks. [illegible] Inter-Ocean hotel (Robert Sims), and the other run by Mr. N. Frely, proprietor of the Dunn house, Helena, will be opened and in full operation on May 1, with accommodations for 300 guests. The Northern Pacific railroad company have just finished a fine new freight depot, eighty feet long, and are at work with a gang of men clearing the right of way, placing new platforms, etc., and will at once proceed to lay a new side track, making that the present side of things are inadequate to the wants of our town.

The townsite company are rapidly pushing their wagon road to completion, having 120 men at work constantly, and a pack train of twenty-eight mules carrying provisions to their camp, which is at present just across the summit, within five miles of Eagle City. A few days ago a lead of quartz was struck six miles north of Belknap, and though the owner has not yet had a great deal of quartz, [illegible] of it and the sample here has been sent to an assayer at Coeur d'Alene. [illegible] Mr. W. E. Graham, one of the most competent assayers in this country, and [illegible] the assay shows 1160 ounces silver and twenty-six ounces gold [illegible] the third, 1500 ounces of silver and twenty four ounces of gold [illegible] J. C. Scott [illegible] Mr. D. D. Law, our postmaster, [illegible] of Dresden and [illegible].

[illegible] the United States mail is delivered here daily. A [illegible] Superior. The United States mail route from here to the [illegible] and the Eagle City mail route from here is carried on horseback. [illegible] the pony express [illegible] the Northern Pacific [illegible] and that Belknap will [illegible]. In conclusion I will say that the prospects of Belknap [illegible] law and order [illegible] which resulted in one of the parties going to Missoula to take charge of them, the other lying with two bullets through his body and not expected to live.

FRED. E. REED.

PRESCOTT NOTES.

PRESCOTT, April 24.

We have no preacher in Prescott now.

In this vicinity all fruit trees are white with blossoms.

The Presbyterian church is slowly nearing completion.

A few of the residents have amused themselves by catching some of the numerous salmon which have been running up the Touchet.

The public school building is a creditable one for the district, and is in charge of an efficient teacher, a lady graduate from Salem, and the school is well attended.

For the past two weeks we have had occasional showers, which have refreshed vegetation of all kinds. The prospects for a heavy yield of grain, all over the valley, were never better.

Those who come to the Walla Walla valley to look for homes should look around Prescott before buying; the land is cheaper and better than around Walla Walla.

Seven years ago there were but two farmhouses between Touchet and Walla Walla on the Mullen road. Now there is not an acre unclaimed. The improvements being recent are not of course to be compared with those in older settled districts.

The grist mill at Prescott, which is valued at $85,000, is now idle from lack of wheat to grind, and the millers are temporarily thrown out of employment. The owners feel a little "blue," but the experience will be that their money is invested in a good business, [illegible] this season, and by next [illegible] if allowing so much to be shipped out of the valley.

Asthma and Bronchitis cured by Dr. King's New Discovery for Consumption. Trial Bottles free.

SACKETT'S WINES AND BRANDY. [illegible]

Deformities, ruptures, diseases of the spine, joints and nerves, specially treated. Dr. [illegible], general and Orthopedic surgeon, Dekum's building, Portland, Or.

FOREIGN DISPATCHES.

Great Britain's Budget Introduced in the Commons.

NEWS AND GOSSIP FROM THE OLD WORLD

Terrific Explosion of Gunpowder at Dublin Barracks—The War in the Soudan—The Day's Events.

ENGLAND.

GREAT BRITAIN'S BUDGET.

LONDON, April 24.—In the house of commons the chancellor of the exchequer introduced the budget of revenue for 1883, which amounted to £87,205,184, and the expenditure to £86,999,000. The beer duty alone exceeded the estimate by £300,000, while the spirit duty fell off. The income tax produced £485,000 beyond the estimate. The national debt up to the present time is reduced by £72,080,000 (cheers). It is now lower than since 1811, while interest is lower than since 1805 (cheers). The national debt was reduced during 1883 by £6,500,000. The estimated expenditure for the current fiscal year of 1885 is £85,000,000, against £85,954,000 the previous year. Childers said it was difficult for one to recast the revenue for 1884, as trade and agriculture were unsatisfactory, but the working classes were pretty comfortably off, and pauperism was declining. The revenue is estimated at £85,550,000, against £71,866,000 last year. In connection with the postoffice estimates he was sorry to say that after eight months' experience the parcels post had produced only £135,000, against the estimate of £300,000. It was therefore proposed to defer the system of sixpenny telegrams until August, 1885. Owing to the smallness of the surplus—only £262,000—Childers only proposed to reduce the tax on carriages, which would absorb £240,000 of the remaining £223,000, which was not too much to keep in hand. It is proposed to coin new half sovereigns containing 10 per cent. less gold, thus effecting a net profit of £1,300,000, which sum put out at interest will suffice to maintain the gold coinage in future in a satisfactory condition. It is also proposed to convert the 3 per cent. consols into 2¾ per cents.

THE PROPOSED EGYPTIAN CONFERENCE.

LONDON, April 25.—The British ambassador to Turkey has informed the government that the porte insists, if the Egyptian conference be held at all, that its objects shall include the settlement of political as well as the financial question.

BERLIN, April 25.—The *National Gazette* says: "Germany is concerned only in the financial question, and will not touch the British proposals, unless the political question be excluded."

POWER WILL JOIN THE GOVERNMENT.

LONDON, April 25.—[Special.]—Power, member of parliament for county Mayo, Ireland, who read himself out of the home rule party February 14th, by a violent speech attacking Parnell officially, came out on the side of the government this evening, by taking a seat on the liberal bench. He has frequently appeared as a liberal orator at political meetings during the past few weeks, and his late associates in the home rule ranks intimate that he has sold himself to the government for the promise of some office in Ireland.

APPEAL TO THE COUNTRY URGENT.

LONDON, April 25.—Marquis Salisbury and Sir Stafford Northcote, conservative leaders, replying to resolutions forwarded by Edinburgh conservatives, set forth in strong terms that the importance of an appeal to the country is becoming urgent. They declare that the government has neither the authority nor the influence absolutely necessary for a proper management of the house of commons and of foreign affairs.

FAILED TO PAY HIS ELECTION EXPENSES.

LONDON, April 25.—[Special.]—Vernon Harcourt, husband of a daughter of John Lothrop Motley, the American historian, was to-day placed in quite an embarrassing position before the public, through a political scandal pushed to judgment in a court of law against him. A suit was decided against him for his election expenses which had not been paid, and which Harcourt declares were payable by his political agent.

BLUE BOOK ISSUED.

LONDON, April 25.—The blue book has been issued, containing correspondence between the British and United States governments on the subject of the cattle disease. The result of consular and other reports is that the foot and mouth disease is not indigenous to America, but rather that the outbreaks throughout the states are traceable to cargoes of cattle from England.

THE UNSUITABLE ACCEPTED.

LONDON, April 25.—In the commons to-day the government virtually accepted the decision of the house with regard to the cattle bill, as expressed by the vote Thursday last. They will propose an amendment, however, authorizing the privy council to admit cattle from one part of the country, while cattle and foot and mouth disease is prevailing in another part.

THE SHENDY MASSACRE.

LONDON, April 26.—The Cairo correspondent of the *Daily News* says a telegram from Korti, dated April 25, says that Gordon, 10 of the recent massacre at Shendy are exaggerated. The loss of officers and soldiers was only slight. Hussein Pasha, governor of Berber, says he and the garrison will die at their post of duty.

"PRINCESS ALICE'S MEMOIRS."

LONDON, April 26.—"Princess Alice's Memoirs" contain her complete correspondence with the queen until her death. The work excites greater interest than the queen's book. One hundred and fifty thousand copies were issued as the first edition.

MEETING OF SHIP OWNERS.

LONDON, April 25.—Ship owners in the north of England will hold a meeting to arrange for the withdrawal, for four months, of one fourth of the vessels of each owner, with the purpose of raising rates in the steam freight market.

LIVERPOOL GRAIN MARKET.

LIVERPOOL, April 25.—Breadstuffs quiet. The advance checks business. Flour is unchanged. Wheat, red winter 7s 9d; No. 2 spring 7s 7d; California club, 7s 9d@8s 3d. Corn, new 5s 2½d; old, 5s 4d.

ANOTHER CARDINAL.

LONDON, April 25.—The pope has decided to create another cardinal in the United States.

CANADA.

THE LOSS OF THE STEINMANN.

HALIFAX, April 25.—Captain Scott, in the official report of the result of the inquiry into the loss of the steamer Daniel Steinmann, says Captain Schoonhoven made no observation on the day of the disaster, and was therefore uncertain of his position. The night was dark, foggy and rainy, and it was highly imprudent under all circumstances to attempt to enter the port of Halifax. It was clearly his duty to haul off shore till able to verify his position and obtain a pilot. To these circumstances alone can be attributed the loss of the fine ship and the lives of 124 persons.

OLD QUARREL REVIVED.

MONTREAL, April 25.—A telegram from the Rev. Father [illegible] says that there are grave disturbances at [illegible] the Indian settlement [illegible], at that place. Yesterday afternoon a part of his building was torn down. The Ottawa authorities have been asked for assistance. The affair is a fresh breaking out of the old quarrel between the Catholic seminary and protestant Indians.

THE GOVERNMENT REPORTED.

TORONTO, April 25.—The grand jury to-night returned a true bill against Bunting, Wilkinson, Kerk and Kilvert and others, conspirators, on a charge of conspiracy, in combining and confederating with one another to gain a vote of want of confidence in the Mowat government, and to defeat legislation of that government, and procure a change in its timber policy.

DEPREDATIONS OF BRITISH COLUMBIA CHINESE.

OTTAWA, Can., April 25.—[Special.]—Advices from British Columbia state that a number of Chinamen discharged from work on the Canadian Pacific made an attempt to wreck a train near Nicomen, on the main line. The hands of Chinamen are infesting that province. They are out of work, and are constantly committing outrages against life and property.

CIRCULATED BY INTERESTED PERSONS.

MONTREAL, April 26.—An associated press dispatch states that Kennedy, of New York, some time ago resigned from the directorate of the Canadian Pacific railroad company. The *Argus* states that the rumors of the resignation of Kennedy and McIntyre were circulated by interested persons.

IRELAND.

EXPLOSION AT DUBLIN.

DUBLIN, April 25.—A canister of gunpowder exploded to-day in the barracks in Ship street in this city. Windows of the barracks were shattered. Officers residing in the rear, directly above, were uninjured, although several pieces of iron rod, two inches long, were found scattered about. No arrests.

Fragments of clock work were found near the scene. The report of the explosion was very loud, and caused great alarm.

SPAIN.

SPANISH MATTERS.

MADRID, April 25.—While the Aguero expedition was in course of preparation certain Spanish republicans of extreme views sent an agent to America for the purpose of fomenting the movement. Their hope was that the movement could be made to assume such a proportion that its reaction would be felt in Madrid. The republicans promised Cuba self government, and declared that the relations between Spain and Cuba would be made similar to those between England and Canada.

EGYPT.

KHARTOUM REPORTED FALLEN.

ALEXANDRIA, April 25.—A native paper publishes a rumor that Khartoum has fallen, that General Gordon is a prisoner, and that the natives are signing a petition for an English protectorate for ten years. The troops for Suakin have arrived at Korosko. They lost 65 men on the journey.

ARABS HOMELESS.

PORT SAID, April 25.—Half of the Arab quarters was burned to-day, and 4000 Arabs are rendered homeless.

SCOTLAND.

AN IRE SOCIETY.

GLASGOW, April 25.—It is impossible to withdraw one fourth of the vessels for four months, as proposed, in order to raise the rates on ocean freight, as the steamers are mostly chartered to fixed lines.

ROUMANIA.

ARRIVAL OF ROYAL VISITORS.

BUCHAREST, April 25.—Rudolph, crown prince of Austria, and wife, Princess Stephanie, have arrived in this city. They were received with an ovation.

CHEMISTS HAVE ALWAYS FOUND
DR. PRICE'S CREAM BAKING POWDER
TRADE MARK

SATURDAY MORNING APRIL 26 1884

AMERICA'S WHEAT-GROWING COMPETITION

It is evident that the agriculturists of this country must prepare to face a new and formidable condition of things The commercial policy of the United States has not been calculated to maintain a demand for our products abroad On the contrary its effect has been to provoke retaliatory measures The countries which have been the principal customers for our agricultural products are making great efforts to become independent of us England is succeeding in this to a remarkable degree The effect is already seen in a lower price for wheat in Chicago and New York than has been quoted for twenty five years. Since it is probable that we are to find a great rival hereafter in India, in the wheat export business, the facts in regard to the capacity of that country as a grain producing region cannot but be of interest to our people. India has a population of 252 000 000 and an area of 1 377,000 square miles Development of her railway system is, however, only but just begun, since this vast country has as yet only as many miles of railroad as Illinois, though possessing twenty times the area

According to the figures presented by a writer in a recent number of an English periodical, the cost of transportation in that country is still very heavy. At the present time it costs more to carry a ton of wheat 616 miles over the Great Indian Peninsula railway than it does to carry the same quantity 960 miles over an American trunk line In 1881 wheat was carried from Chicago to Liverpool at a total cost for transportation of $7 77 per ton, while the rate charged in March, 1883 by the East India railway from Delhi to Havrah a distance of but 954 miles, was $7 85 per ton It under present conditions the export of wheat from the United States, under Indian competition fell off during the past year 50,000 000 of bushels it is worth considering what will be the result when increasing business and competition between rival Indian railways bring down freight rates between the interior and the coast as they have been brought down in the United States

All that is needed to make India the greatest wheat-growing region in the world, with her cheap labor and cheap lands is a more extended system of railroads that would afford her farmers cheaper means of transportation The writer above alluded to holds that it would be perfectly safe to give a guaranty on at least $50 000 000 a year to companies agreeing to construct selected lines of railway." With such an outlay the writer thinks about 1200 miles of road could be completed per annum. Considering the vast areas of fine wheat land in India yet to be made accessable by railway extension this rate of building cannot, he holds, be regarded as excessive, especially in view of the fact that the United States averages from eight to ten thousand miles of new road yearly Some of the railroads in India are private property built exclusively with private capital drawn from England, but a large proportion of them have been constructed with government help either directly or in the shape of a guaranty of interest on the amount of outlay For many years a number of the roads to which the government had lent its aid failed to pay profits but on the contrary netted the government an annual loss But recently all this has changed and instead of being a source of expense the railways have begun to add very largely to the revenue applicable to the general expenses of the government This result has favored the creation of a strong sentiment among the India trading communities in favor of a further large development of the railway system of the community, either at the government's expense or under the stimulus of a guarranty of interest on capital expended by private parties

It is worth notice, also, as an index to the future that the progress of the wheat trade of India has kept steady pace with the development of the country and the increased facilities of cheaper transportation The exportation of wheat began in 1873 when the amount exported was only, in round numbers, 40 000 000 pounds. In 1880 it was 220 151 500 pounds in 1882, 1 990 200 560 pounds, in six months of 1883, 1,571 498 200 pounds The miles of railway increased from 5695 in 1873 to 8212 in 1875 and 10,144 in 1882 The New York *Commercial Bulletin* is publishing a series of articles by a writer who was long a resident of British India, and who asks this question "How can the American agriculturist meet the formidable competition which thus confronts him in the near future from a country whose peculiar climatic conditions enable it to produce two, and in some sections three, harvests in a single year, backed by a practically inexhaustible supply of cheap labor?" Such a question is a hard one to answer

THE RESULT OF THE RIOT

"A bull dog," says a plantation proverb, "is better than a law book sometimes," and the history of the Cincinnati riot confirms the justice of the sentiment. The violence with which public indignation expressed itself has had the effect of compelling a recognition of the right of the community to the vigorous prosecution and prompt punishment of the criminals who have assailed its peace and prosperity The twenty three peremptory challenges of the prisoner have been cut down to six, and the state's increased from two to four, while the scandalous rule by which the prisoner has been permitted to exclude from his jury any one who had read a newspaper account of his crime and formed an opinion about it, has been abolished In other words, the bull dog of popular fury whose most effectual chain is justice, has reformed the law book and set a bound to the apathy of courts and the venality of legislatures Few characteristics of human nature seem baser or more disheartening than the indifference of established power to reason and to justice The only argument which it commonly heeds is terror and appeals to self interest are its chief persuasives Accordingly it has often happened that reform has waited on violence, and that savage excesses have given a new impulse to the sluggish forces of civilization Sydney Smith was so well aware of this fact that in urging Catholic emancipation upon the English people and their parliament he did not wholly or even chiefly rely upon the justice of his cause, but laid special stress upon the danger of an uprising of Catholics at some critical juncture (as of a foreign war) when they could extort their rights under circumstances of peculiar embarrassment to the government and danger to the people To John Bull's stereotyped rejoinder that he would not do justice even on compulsion, he replied by showing—with many historic illustrations—that he had seldom done justice except on compulsion

"There was a period," he wrote, "when the slightest concession would have satisfied the Americans, but all the world was in heroics One set of gentlemen met at the Lamb and another at the Lion—blood and treasure men breathing war, vengeance and contempt, and eight years afterward an awkward looking gentleman, in plain clothes, walked up the drawing-room of St James in the midst of the gentlemen of the Lion and the Lamb, and was introduced as the ambassador from the United States of America."

People of Benton county are said to be exercised about a bill which has been introduced in congress to consolidate certain customs districts because it proposes to consolidate the district of Yaquina bay with that of Portland We assure our friends of Yaquina that this is no one of "Portland's schemes" It originates with the secretary of the treasury, who recently submitted to congress a plan for consolidation of a large number of the customs districts of the country. But the bill is not likely to pass Members of congress from the several states will be against it, each objecting to particular features of the bill, as members from Oregon will object to this one in relation to Yaquina bay

FROM PORTLAND TO ASHLAND

The Oregon and California railroad will be opened to Ashland, three hundred and forty miles south of Portland on the 5th of May Considerable work has been done south of Ashland two of the largest tunnels have been bored and the road graded a short distance to the base of the Siskiyou mountains This work has been temporarily suspended owing to the embarrassment of the Oregon and Transcontinental Company and will not be resumed until the future policy of that company is decided upon at its annual meeting in June There is no doubt, however, that the road will be completed some time to its junction with the California and Oregon railroad at the state line, thirty miles south of Ashland, and this connection will be made sooner perhaps than present appearances would indicate When completed the line between Portland and San Francisco will have a large fast freight express and passenger traffic It will be the most picturesque route on the Pacific coast The portion now completed has scenic attractions of great variety and interest, and people living in Portland and the lower valley could not make a pleasanter excursion, particularly at this season of the year while the earth is flush as May than a trip to Ashland would afford as soon as trains begin to run to that place The cultivated portions of the country may perhaps be more accurately described as in their glory in autumn, when the ripe fruit hangs thick upon the trees and the golden grain covers the land But when the apple trees are in blossom and the dog wood, and skunk cabbage, having, as Miss Coope says, made an accurate guess at the season of the year and spread themselves upon the pallet on which the Paint king sets the colors of the year the landscape as a whole is probably at its very best A ride through the Willamette valley at any time almost is sufficient to sustain the confidence of Portland people in its continued prosperity and growth For it is from this valley largely that the wealth of Portland has been derived Situated like Tyrus of old "at the entry of the sea" Portland has been similarly "replenished" by the tribute she has levied upon the traffic of the Willamette valley, which is capable of supporting a population of more than a million who will contribute still more to the growth of this city and to the value of the transportation routes which terminate here

After leaving the Willamette valley the railroad passes through the Calapooia mountains to the Yoncalla valley and thence to the Umpqua, which has a succession of valleys among the hills all very fertile and inviting spots for villages and farms The South Umpqua valley, through which the railroad runs on leaving Roseburg is one of the richest parts of the state But on either side of the road there are other valleys ensconced among the hills of equal beauty and fertility which will furnish when fully developed a large traffic. The road leaves the South Umpqua about twenty five miles from Roseburg and enters the Cow Creek valley which is about thirty miles in length and though narrow is fertile and capable of producing much more grain hay and fruit than it has heretofore done with only a limited local market to stimulate production while beyond on either side are ranges for stock This has been a good sheep region, but the coyotes have now control of the country and the flocks are dwindling to small proportion At Nichols a station named we presume for one of the heroes of the battle of Hungry hill who still lives in the valley the railroad begins its tortuous course through the Cow Creek canyon, where the scenery is wild and the country incapable of much cultivation Some of the hillsides are rich and if the elevation were not too great they might bear grapes, but a good deal of the soil is a decomposed white granite, which cannot be profitably cultivated in any crop The mountains, however, are full of timber, some of which, as the sugar pine is very valuable The railroad passes by many places of historic interest Near Glendale is Hungry hill where the most disastrous battle in Oregon was fought Grave creek Jump-off Joe and Table Rock are all associated with events of tragic or grotesque interest At Grant's Pass the railroad begins to ascend the Rogue river through a narrow valley, with here and there an open space inviting settlement and all the way placer diggings, some of which are now profitably worked and more might be if water could be had for washing the gravel Winding around Gold Hill the railroad passes out of the mountains into the famous Rogue river valley, which has been so often described, though it is really the Bear creek valley a branch of the Rogue river which the railroad follows up to Ashland at the foot of the Siskiyou mountains The railroad leaves Jacksonville on the right about four miles from Medford, a new town situated in the center of the valley, and destined apparently to become the center of trade for that region It has already some business and good prospects At Phœnix the present terminus of railroad traffic, an addition has been projected to the quiet old town This is seven miles from Ashland, which for the present, while it remains the terminus of the railroad will enjoy special advantages for business, such as Roseburg had during the ten years the railroad stopped there This town is delightfully situated It has an air of thrift and comfort and though it has no special boom there are unmistakable evidences of assured growth It is the manufacturing town of the county The famous Ashland woolen mills, a fine flouring mill, a sawmill two furniture and sash and door factories, and a number of other establishments run by machinery are located on Ashland creek in the immediate vicinity of the town Supplies for Fort Klamath and for the stock raisers of Lake and Klamath counties are purchased here and freighted by wagons to the points where they are required This alone brings to Ashland a profitable trade aside from that of the wealthy farming community in the neighborhood A portion at least of the business in the mining regions below at the prosperous town of Yreka and other points will reach the railroad at Ashland and probably some of the cattle from the ranges east of the mountains will be shipped there

In another article more will be said about the country and railroad which is inviting it to a new and larger growth

In the republican convention of Marion county yesterday serious disagreement was at one time imminent, growing out of the differences of two years ago However, after full conference the points in dispute were amicably settled, and a ticket was nominated upon which it is believed the republicans of the county will fully unite

MISTAKEN IDENTITY.

PRESCOTT, W T, Apr 17

TO THE EDITOR OF THE OREGONIAN:

In your issue of the 15th inst, under the title of "Pioneer Journalism" you mistake the identity of one Captain Grant for that of another You say in preface to a quotation from the *Oregon Spectator* of Feb 5 1846 the Captain Grant alluded to in the following is now ex President Grant Rumor—We are informed by a respectable gentleman, who a short time since, received a letter from Captain Grant of Fort Hall stating that Dr White, Indian agent for Oregon territory and his whole party had been cut off by the Sioux Indians between Fort Bridger and Fort Laramie Captain Grant writes in the positive Now the Captain Grant then stationed at Fort Hall (if still alive, is a fine old English or Scotch gentleman, of about 100 years of age—not ex President Grant I remember having seen him at Fort Hall in 1847 and he then appeared to be a well preserved man of sixty At that time Fort Hall was a Hudson's Bay trading post—not a United States fort and the Captain Grant mentioned in the *Spectator* was in charge while at the same time Feb 5 1846 our ex president was a lieutenant who had never even smelled the smoke of battle in Mexico So much for your mistake in the identity of Captain Grant

But the Captain Grant who sent the "Rumor" to Oregon was mistaken in his supposed facts Dr White and party were not "cut off" by the Indians, although this venerable rumor of forty years' standing has never to my knowledge, been denied through the press And my only object in making this statement is to prevent such immigrants as have come to Oregon within the last thirty or forty years from believing that rumor" of Dr White's "cutting off" as a piece of veritable history

E

FROM THOMPSON FALLS

Highly Favorable Reports from the Mines

THOMPSON FALLS M T, April 20

In the last two days very favorable reports have been brought in by reliable parties from the Coeur d'Alene mines T Tilly who walked from Murray ville to here yesterday tells me that the Davis company who are working a placer claim in Dream gulch, cleaned up $1500 from a day and a half's run Four other claims are being worked and are paying big All men that own claims are happy and well satisfied W P Hoffman, a well to do 49er who with a party discovered the Florence district and who has worked in the Boise and Bannock mining districts has just returned from a trip to the Coeur d'Alene and speaks highly in favor of the district He says from all indications and formations of the rock it is more than likely to be one of the best gold and silver districts that there has been on the coast That the placers are good there is now not the least doubt Every old miner pronounces it the biggest thing struck since 49

The late reports from the mines have given a new impetus to all kinds of trade and things in general men are coming from the mines for new and larger supplies of goods Freighters and packers are arriving with their animals and every one is preparing for a big rush of business

There has been considerable trouble here over townsites the railroad company's right of way and squatters rights When the town first started some parties were forced to vacate their land at the mouth of the shotgun Said parties are now endeavoring to prove their claims in court Geo W Hill of Portland has entered suit against A W [illegible] to recover 160 acres of land on part of which the northwest quarter of this town is located

A company has organized to repair and put in use a trail from Thompson station on the line of the N P R R, three miles east of here to the mines This trail has been in existence for an unknown number of years It was traveled by the Hudson Bay Company's men and the mission fathers in the early days of the country It is known as "The Old Mission Trail" It was shown to Jack L De Mars of French Town, M T, and Charles A Lynch of Horse Plains M T by an old Pend d'Oreille Indian known as "Big Head"

The leading business men from the west here are Kreilig & Co of Portland Oregon Arms & Brush, two rising young merchants formerly of Ainsworth W T who have a large general merchandise house here and a branch store at Belknap and J M Roberts who done business at the front in those hard times when the Northern Pacific railroad was being built through these mountains

The first death occurred in town last night Geo Van Alstine an old packer in the employ of Kirk et Hall & Co, died of heart disease He was buried to day with a large funeral attendance

The leading sport at present is trout fishing The falls just below town afford an excellent place for catching the trout and many an angler is made happy by being able to stroll leisurely into town with a big string of fine trout

EUGENE NOTES.

EUGENE April 25

The university senior class will have but two weeks vacation this year

Hendricks & Eakin bankers have a new time lock on their safe It works perfectly

Circuit court adjourned last evening, its business having all been settled

J Wilkins and A T Bennett Wm Laird and John Maxwell of Springfield and R M Mulholland of Junction Lodge I O O F will attend the grand lodge at Astoria

The building formerly known as the Underwood brick now owned by the Eugene Real Estate Company, is receiving a new coat of cement which materially improves its appearance

Dr T H Harris late of Albany having purchased the residence of Dr Shelton has permanently located here Dr Shelton retires from practice for awhile and I understand will take a trip east this summer

A daughter of Mr Jon Stoop, residing near Goshen in alighting from a wagon stepped upon the end of the doubletree and slipping fell to the ground She fell in such a way as to break both the lower bones of the leg In her attempts to rise, the end of the fractured bones protruded through the flesh Dr Harris was called and set the fractured limb

The number of buildings consisting of residences and business houses erected here last season as reported by Mayor Hume was about sixty five It is thought there will be an equal amount of building done this year Among the additional stories to be added to buildings Hendricks & Eakin and T R Hays Mr G H Parks will build a two story brick for J I Page and a three story brick hotel will be built on the site of the old Astor house

FISHING NOTES.

During the past week a member of THE OREGONIAN staff paid a visit to the lower Columbia fisheries and found things shaping up for a vigorous campaign. April fishing has been prosecuted by only five of the canneries, as the fish are scarcer than usual at this season. Again, there has always been a great deal of disadvantage attending upon fishing in April, as there are frequently heavy storms in the lower bay, which occasion the loss not only of the nets and boats but valuable lives as well; for the fishermen who get drowned are often the bravest and best men in the business, who venture out into dangerous water, while the lazy and worthless men are ashore drinking and playing cards. Again, during April there are large masses of floating snags and driftwood in the river, which tear the nets in every direction and impose additional expense upon the cannerymen without any corresponding benefit. In former years the canneries sustained considerable losses in April, as their fish were few and their expenses just as high as if they were plenty. This year, however, it was agreed that a certain number of canneries should stay out of the business during April, and all concerned are the better for it.

The sales of the season's pack in advance are larger than was at first anticipated, and while the prices are low as compared with 1882, they manifest some symptoms of an upward tendency. The "Photograph" brand of Joseph Hume has hitherto commanded the top figure in the English market, and sales at 25 per case of this brand are reported, which is equal to $5 15, as there is a rebate of 2½ cents per dozen upon the tin plate for export. This year we hear of a sale of at least 20,000 cases at $1 25 per dozen for export by Devlin & Co. (their entire pack-ing for the season), which is as good as any sale made this season. Another sale of 10,000 cases was reported at $1 17½ for export on Thursday, which is equal to $1 20 for the domestic market. All these prices are F. O. B. Columbia river, which means placed on board at buyers' expense. In February there was no prospect of anything better than $4 50 per case, and things looked decidedly blue, but now there is a better outlook owing to the concerted action of cannery men. But they have not gone far enough in the matter of cooperation. They need a traveling agent in the Atlantic cities to work constantly upon the grocery trade, to show them the real merit of Columbia river salmon over the worthless brands packed at the outside canneries along the coast and labeled with the trade marks of fictitious firms having no bona fide existence on the Columbia river. A gentleman of Astoria who went east in September last, while in New York and Boston, undertook the inspection of this matter for his own edification, and found twenty-one bogus brands in circulation, eighteen of which are believed to have been packed in the city of San Francisco. It needs some man to travel backward and forward through the Atlantic states and check impositions of this sort upon the trade. Such a man would be cheap at $5000 a year, if really competent, which would be only a trifle over $100 per year from each of the Columbia river canneries, and they would soon get their money back.

Another thing that is needed, is the presence in London and Liverpool of a competent man to look after the matter of reclamations of consignments of canned salmon, through which it is believed the packers are losing a good deal more money than they should do, as they have no recourse against their consignees, but have to take their word for everything. If consignees wish to act fairly, all right; but if they wish to "cinch" the packers, they have the latter class wholly at their mercy, as a twenty-dollar piece would soon fix a warehouse clerk to certify to almost anything he was so requested. In this matter, as in the case of the traveling agent for the Atlantic states, no cheap man is wanted. The one case calls for a man of energy and activity, while the other demands a person of sterling integrity, who is not to be bought off, on the one hand, or bullied out of protecting his employers' interests, on the other. To pay such a man $5,000 per year would be no extravagant price, and it would not take long for the cannery men to reimburse themselves at that figure, if the agent attended properly to his duty. Of course such a man must be a practical canner, familiar with all the secrets of the trade and able to determine just what goods were fit for sale and what deserving of immediate rejection. And until some concerted action is taken to establish agencies of this sort, the proprietors of the Columbia canneries will be the greatest sufferers by the abuses that have crept in within the past ten years, both in the European markets and those of the Atlantic states.

During the past sixty days one house has brought in as high as 13 per cent. reclamations against more than one cannery on the river, of which said house has acted as consignee. If cannery proprietors are to pay 60 and 75 cents for fish, 10 per cent. interest upon advances, 5 per cent. commission on sales, and then reclamations of 13 per cent. upon goods packed with the greatest care, there certainly cannot be much left for the packers, and this great industry, which has grown upward from nothing, will soon return to zero again. Nothing can defeat this but concert of action. Columbia river cannery proprietors must stand by one another, and there in the should be "all for one, and one for all." But there are symptoms of movements in this direction already perceptible in the atmosphere. On Friday the 18th a pool was made by six canneries, who sold a single lot of 12,500 cases through D. J. Beck of San Francisco at $1 12½ for the bulk of it, f. o. b. This was thought better than borrowing advances at 10 per cent. interest and waiting for higher figures, and was probably done to pay current expenses while awaiting an improvement in the market. For my own part I cannot but regard the rate of interest upon advances as extortionate in the first degree. In San Francisco, where all this money is obtained, the Bank of California has frequently made real loans as low as 5 per cent. per annum, to my certain knowledge, within the past year. And hence I do not believe that the parties making the advances pay any higher rates, but possibly get it for less. If there is any better paying business than this thing of borrowing money at 5 per cent. and loaning it again at 10, I would like to hear of it. But one or two San Francisco firms have all this cannery business under their thumbs and are able to dictate just such terms as they like, whether the packers like them or not. And whether the Northern Pacific railroad has opened to them any better market in New York, or any refuge from the oppressions now existing in San Francisco, remains to be seen.

And how long will it be before the trade will awake to the futility of attempting to carry outside canneries which pack a worthless grade of fish. To show how this oppresses the trade itself, I will mention a lot of 30,000 cases now on storage in San Francisco since October of last year. Portions of this lot have been sold four times since December and invariably returned as unsalable at retail because unfit for use. The last sale out of it was 4000 cases at 90 cents per dozen and the purchaser could not get rid of it even at that price. It is high time that the retail grocers, not only in California and Oregon towns but in eastern cities as well, should inform themselves as to the difference between the genuine Columbia river salmon and the bogus brands put up at outside canneries; but the best way, and the cheapest in the long run, would be to employ a traveling advertising agent as stated in the fore part of this article. It would enable the retail trade to learn this much quicker than they could acquire it if left to themselves, that the cost of teaching them would be no object. Then with the demand which would be certain to grow with the knowledge thus acquired and the limitation upon the supply which must necessarily exist until artificial propagation is resumed, it would not take the Chinook salmon very long to reach the supremacy of the market and hold it until the end of time. This result, however, can only be reached in one way, by unanimity of movement and simultaneous action for the good of all concerned.

PERSONAL.

Mr. J. F. Halloran, editor of the [illegible], is in the city.

Frank Owen leaves this morning for Astoria with his family.

Mr. F. S. Radebaugh, editor of the New Tacoma *Ledger*, is in the city.

Drs. E. C. and E. W. Brown have gone to Seattle on account of illness of a sister at that place.

Frank P. Dwyer, northern traveling agent of the Chicago and Grand Trunk and Grand Trunk railways is in the city.

Mrs. Rachel Healey returned a few days ago, after an absence of one year, during which time she has visited Boston, New York, Providence and Baltimore.

Mr. S. E. Pettingill of the editorial corps of THE OREGONIAN, has been invited to deliver the commencement address at the Pacific university, Forest Grove, June 4, and will accept.

Judge Boise of Salem will sit in the state circuit court next week to try several cases in which Judge Seneca Smith was interested before his appointment to the bench, notably the Albina ferry cases. Judge Smith leaves for Roseburg Tuesday, to be absent several days.

Mrs. Cecil, the pleasant-faced lady who has served so efficiently as receiver in the Western Union office since the strike, leaves this afternoon for San Francisco via Victoria. Failing health necessitated a change of climate.

AMUSEMENTS.

"PATIENCE."—This opera drew another packed house last night and went with more smoothness than at the first performance. Matinee to-day at usual matinee prices. To-night the last performance of the opera will be given. Admission to the gallery 25 cents.

BRIEF MENTION.

Those real ostrich tips that Mozart is selling for 25 cents are worth 75 cents.

The finest assortment of millinery at popular prices will be found at Mozart's.

Stylish woolen suits, ready made, from $7 50 to $15. Elegant silk suits, $20 to $45, at Mozart's.

Fine Manilla straw hats, $1 75; chip, $1. Twenty-five different styles of sun hats for 25 cents at Mozart's, 71 Morrison street.

Full finished hose, in all colors, only 25 cents. A few more P. D. corsets for 25 cents. Muslin bonnets, 35 cents. Knitted skirts, 50 cents. Baby bonnets trimmed, only 25 cents, at Mozart's "Popular Store."

Too much cannot be said in praise of the ostrich plumes offered to the public by the "Popular Store." The far exceed anything of the kind ever before sold in Portland. The prices range from $1 25 to $4 50. Intending buyers had better see them. Mozart's cloak and suit house, 70 Morrison street, is the only place that you can get them.

Excursion.

Mr. R. S. [illegible] of the Pioneer [illegible] excursion [illegible] to [illegible] Sunday, April 27. Those who wish to attend [illegible] should not fail to attend. Music will be furnished under the leadership of Prof. [illegible]. No objectionable characters allowed on the boat. Tickets of the excursion can be seen at D. W. Prentice's music store. The steamer Traveler will leave foot of Morrison street at 9 o'clock.

Carriages and Buggies.

Lent's Drug Store.

Third and Jefferson. Prescriptions compounded day or night. Toilet articles and fancy goods.

A CHAPTER ON EGGS.

Yesterday a reporter of this paper noticed in the United States bonded warehouse a number of packages of eggs imported direct from China. They were preserved from decay by a cement covering, composed evidently of clay and sand. The Chinese merchant to whom they were consigned stated that they cost five cents per dozen in China. He further stated that poultry there were "egged" on to almost superhuman efforts in the line of laying, not being allowed to waste precious time in the too often futile labor of incubating.

And the reporter thought:

Eggs are among the greatest mysteries of the animal kingdom. Looking at the fragile shell one is led to wonder what the life germ contained therein will develop. It may be a Brown Leghorn pullet or a gigantic Cochin China rooster, or any of the numerous fancy feathered freaks which delight the hearts of chicken breeders. And then what infinite variety in the way of food the egg affords, from rum omelettes made of eggs in the glory of their pristine freshness down to the scramble of the cheap restaurant, made from eggs "too far gone" to be utilized in any other way!

Eggs are perhaps the most widely distributed of all forms of animal food. In this statement only the eggs of domestic fowls are meant, and there is scarcely a spot on the globe inhabited by man where some variety of chickens is not found. From Greenland's icy mountains to India's coral strand, from Kalama to Khartoum, nine out of ten people in every town, hamlet or backwoods clearing have their ears saluted with chanticleers' clarion crow the first thing in the morning.

Gentle reader, did you ever wander through a wilderness without having your approach to the habitations of men made known to you by the same soul inspiring sound? Or when, after sailing the seas over, during the darkness of the night aided by the friendly lighthouse, approached the shores of any country, savage or civilized, have you not heard, just as the day began to break, echoing from every habitation on the shore, the jocund morning salutation of the cock?

The hen and chickens flourish alike in the gloomy cellars of the back alleys of great cities and on the deck of every ship that ploughs the ocean.

The production of eggs in this country is enormous, but the consumption is more enormous. Large quantities are imported from Europe into the eastern cities. They answer for cooking purposes, but are an abomination to those who like to hear the cackle, cackle early in the morning which is of fresh laid eggs a sure and certain warning.

"Eggs is eggs."

This definition of the rustic contains about all that the shrewdest philosopher can with safety assert in regard to these fair but fragile creations.

CHILDREN'S G. A. R. ENTERTAINMENT.

A children's entertainment and social was given last night at Grand Army hall under the auspices of George Wright post G. A. R. Commander Summers having called the meeting to order, invited Comrade N. K. Rankin, chairman of the committee on programme, to act as chairman of the evening. Following is the programme, which was listened to and enjoyed by all present:

Soldiers' Memorial Day, song by about 20 small boys and girls.

A Recitation, by Ray Morse.

Song, "Old Folks at Home," by the Misses Clemens, accompanied by their brother with the accordion.

Recitation, "The Polish Boy," by Hattie Phillips.

Song, Ivy Barker and Georgia Sears.

Recitation, by Illa Fishburn.

Instrumental solo, by Miss G. C. Caukin.

Recitation by Ollie Fishburn.

Song, "When I was a Maiden" by Eva Smith.

Drill exhibition by George Roggers.

Recitation by Gertie Schwab.

Instrumental solo by Miss May Bedell.

Chorus by the children, "Tramp, Tramp, Tramp, the Boys are Marching."

The programme was an interesting one throughout, and all taking a part reflected credit upon themselves and upon the committee who got up the entertainment. After the programme was gone through with, refreshments were served, and then the children engaged in a general good time. All present seemed well pleased, especially because the children enjoyed themselves so well.

SCHOOL DIRECTOR'S MEETING.

A meeting of the board of school directors was held at the council chamber yesterday, a full board being present. The following bills were ordered paid: *Standard* $12, telephone company $20, A. G. Walling $19 25, Blake, Robbins & McFall $7 35, [illegible] Bros $2 75, Ira F. Powers $[illegible], D. Cole & Co $25 [illegible], Ladd & Tilton (interest) $[illegible], First National bank (taxes refunded) $[illegible], street work $[illegible] 75, William Stokes, architect, $1250.

The report of the proceedings of the last teachers' institute was read and ordered filed.

Applications for teachers' positions were received from J. A. Gardiner and Bessie Harcourt, placed on file.

Miss Kate Freeman presented an excuse for her absence from teachers' board. Accepted.

The following bids were received for finishing Couch school building: R. L. Robertson, $[illegible]; J. G. Lowain, $[illegible]; Toller, Stokes & Co., $2475; A. C. Townsend, $[illegible]; W. L. Goodwin, $[illegible]; D. A. McDonald, $[illegible]; J. F. M. [illegible], $[illegible]; Merchant & Bridges, $[illegible].

The contract was awarded to W. L. Goodwin, he being the lowest bidder.

The clerk was authorized to advertise for bids for supplying the school district with wood for the ensuing year.

Adjourned.

THE EAST SIDE.

The Grant pioneer republican club will meet at Shutz's hall this evening at 8 o'clock sharp.

Another saloon has opened out in East Portland. A profitable campaign is evidently anticipated.

The various republican delegations from the east side were organizing last night for action to-day.

Ed White of this city, who was recently taken to Nevada upon requisition for alleged complicity in burning a bridge near Reno, has been acquitted of the charge, his mother having received information to that effect.

Mrs. Leavitt lectured at the M. E. church again last evening, this time on "Prohibition in Politics and Out." She is an interesting speaker, presenting her subject in clear and forcible language. A good audience was present.

Thursday evening Mrs. Mathieu slipped and fell on the back door steps of her residence on L street, between Fifth and Sixth, and dislocated her left hip. Dr. D. Raffety reduced the dislocation, but it will be many days before she will be able to leave her bed.

Some peculiar anomalies are noticeable in the political organization here. The president of the republican club avows he is neutral, and its secretary is one of the proprietors of the *Democratic Era*; while the democratic club elected a man as its treasurer who voted at the republican primaries a day or two before.

The party that left here a few days since to make preliminary surveys for the projected East Portland and Cascade mountains railroad did not proceed further than the vicinity of Brooklyn, where they camped. To-day they will pick up camp and move as far as Willsburg. It is probable they will be absent about three weeks.

A gentleman recently arrived here from the Coeur d'Alene country, gives a harrowing description of those in that region without means. Destitute and without shelter, they have to depend on the bounty of others more fortunate, and build huge bonfires to protect them from the severities of the weather. Gamblers, however, are reported as thriving.

THE COURTS.

U. S. DISTRICT COURT—DEADY, J.

United States vs. Jim Hare—Information filed—arraigned; plea of guilty; sentenced to fine of $10.

Flavel et al. vs. Queen of the Pacific—On trial.

UNITED STATES CIRCUIT COURT—DEADY, J.

Dundee Mortgage and Trust Investment Company vs. Hughes—Demurrer to complaint sustained; plaintiff allowed ten days to amend bill.

Perry vs. Wells, Fargo & Co.—Cause dismissed on stipulation.

POLICE COURT—MORELAND, J.

FRIDAY, April 25.

Wm. Dlubosh, abusive language—Fined $10.

W. C. Hooker, Robert Silver, John Brown, drunk and disorderly—Fined $10 each.

J. C. Doran, John Willson, trespass—Fined $10 each.

Ah Bau, Ah Dick, larceny—Continued.

Robt. Herlitz, robbery—Continued.

SOMETHING NEW.—Allsky, Bauer & Co. are now prepared to furnish their patrons in their refreshment saloon, 115 First st., a change in lunches, consisting of chicken pot pie, meat croquettes, chicken croquettes, lobster, shrimp and chicken salads, and the usual bill of fare as heretofore.

CITY NOTICES.

Go to Keith's for oysters.

Cardinal's Boat House, foot of Stark.

Knight, Druggist, Morrison, near Fourth.

Eastern Oysters every steamer at Kaiva's.

Bock Beer. Everybody drinks it; at The Bank Saloon, First and Ash. F. Keller.

The only sewing machine repairer in Portland. Jno. Barbey, 32 Yamhill street.

Ferguson's hair-cutting headquarters, No. 30 Stark street. Every man an artist.

Buy your candies at Staples', cor. Fourth and Morrison. Fresh candy every day.

Towne & Co., 167-169 First street, make cabinets for $4 per dozen; cards, $2 per dozen.

Get your stove repairing done at Brown's, 101½ Morrison street, opposite postoffice.

Choice brands of wines, liquors and cigars at the Cosmopolitan, corner First and Alder.

Nice, newly furnished rooms; lately kalsomined and renovated. Dick House, First and Madison.

Holton House Restaurant, Alder st., near Fourth. Kept on the European plan. Sol. manager.

Go to W. P. Berger, the sign and ornamental painter, 45 Morrison. Best work in the city, at reasonable rates.

Nelson, Balk & Co., druggists. Prescriptions carefully compounded at all hours, day or night. No. 71 Third st., Ainsworth block.

Lunches for overland passengers a specialty, at Central Market Restaurant, Second street, between A and Ash, only two blocks from overland depot.

"Snowflake" gives the complexion the delicate bloom and glow of youth, and the natural appearance imparted renders it impossible to detect its use. Fifty cents a bottle. J. A. Child & Co., druggists.

Horace Greeley's advice to young men was to "Go West," but as that good man is now gone to his long rest, we advise young men in need of money to go to the great pawnbroker, Uncle Myers, who will see that they get all the money they require. 181 First st.

GARRISON'S SEWING MACHINE STORE, 167 Third street, Portland, Or.—General agent for the two favorites, the White and Household; dealer in all standard sewing machines, oil, needles, attachments and genuine parts. Machines repaired and warranted.

THE NEW TOWN OF LA CAMAS.

What Nature and Human Hands Have Done Toward a Magnificent Water-Power.

Two reporters, one from the OREGONIAN and one from the *Standard*, set out from the city on Thursday morning for a little recreation from routine work. One of them also had high hopes of being able to catch at least one little trout some time during the excursion. Scenery was also one thing sought after, some of that wild, untamed Nature that should set the soul glowing with respondent fire and yet where some kind of an establishment could be found that would furnish beefsteak and potatoes and perhaps some other reportorial luxury. An invitation, given some time previously by D. H. Stearns, an old newspaper man and friend, to visit him in his new home, decided the objective point of the reporters' trip to be the location of the La Camas colony, in Washington territory. The fare, one dollar, also commended itself to the pleasure seekers as not too much unwonted extravagance.

Taking the steamer Dixie Thompson at the Ash street wharf the trip was begun. The bracing morning air, though slightly Oregon in style, gave ample appetite for the breakfast served on board the boat and some little excitement was added by a race with the Joseph Kellogg to the head of Willamette slough.

After a three hours' ride La Camas was reached. The town, where much less than a year ago but one farm house stood on the bank of the Columbia, is now a thriving little settlement. All the signs of a pioneer clearing are apparent, but scattered here and there amidst freshly broken ground and blackened stumps—the last decaying monuments of a mighty forest—are a score or more of neatly made and pleasantly situated little homes. The most prominent buildings are the hotel, boarding house, the store and the office of Mr. E. H. Fletcher, the only notary public the town yet has. The history of the place is quite generally known. How a number of capitalists, associated as the Columbia River Paper Company, sought a water power for a new mill over which they should have complete control, and found it here; how they purchased 2600 acres of farming land, a portion of which was already under cultivation at a high price, in order to obtain all water rights; and how, finally, finding they had sufficient water power for a score of other manufactories, they made known their willingness to supply all that might come. The paper company began at once the necessary work for the improvement of their water power and the construction of their mill. As a natural consequence of all this capital invested here, the laborers and the home seeking class came at once to this place and built up what is now known as La Camas, themselves constituting the "La Camas colony."

THE PAPER MILL TO BE BUILT.

Only a little way back from the river stands the office of the architect of the Columbia River Paper Mill, Mr. S. P. Millard. This building is only a temporary structure adjoining the saw mill, but it stands as a guide post to a great enterprise. Piles of lumber scattered all around, and being sawed each day by load after load from the great saw mill at the foot of the lake, show that work has begun in earnest. Stakes set at what seem to be almost impossible distances for a building, denote the length and breadth of the new paper mill. Through the kindness of Mr. Millard, his plans were seen and are here described: One front of the mill will be 288 feet in length and one end 80 feet, although this is not all under one roof. The main portion of the building is of three stories, 80x12 feet. On the ground floor are to be the drainers, on the second floor eight great pulp engines that reduce the rags, old paper, etc., to the liquid mass necessary for their reconstruction, and on the third floor the storerooms. A truss roof will sustain this floor so that the second story will be one vast room. In the rear of this three story building and joining it will be another of the same dimensions as the first, although only two stories high. The second story of this addition will be used for the chemical room, the bleaching room, and the straw boiling room, while on the ground floor will be a revolving bleaching engine with a rotary boiler, to which steam is admitted from each end. Then added to the right hand side will be a two story building, 50x156 feet, thus making the entire length of 288 feet. Here will be set up the paper machines, one of which will be an 84 inch Fourdrinier, and the other a 56 inch double cylinder. Water will drive all the machinery about the mill, about 500 horse power being estimated as required. There will be two other buildings which will be disconnected from the mill proper, one a boiler house, 42x40, where will be generated the steam necessary for bleaching purposes, and the other, 36x40, to contain the wood pulp engines which will convert into paper material all the cotton wood, maple and spruce trees of that section. Mr. Millard has had considerable experience in mill building in California. Among others, he was the architect for the new paper mill in Santa Clara county and also one for S. P. Taylor & Co. of San Francisco in Marin county.

An item of interest in relation to the building of the mill at La Camas is the amount of stone work to be done. All the foundations, both outer and inner walls, are to be of stone from two to four feet thick, and the added length of all these will be 1200 feet.

THE WATER POWER.

Lake La Camas, from which comes the magnificent water power spoken of above, is about a mile and a quarter from the town, and is reached by a road of gradual ascent up a hill through which nature is making an outlet for the lake rivulet a deep canyon. The forest surrounding is only partially cleared, but still enough to show how valuable such land might become. At the top of the hill the first sign of returning civilization is the saw mill, and just to the right is the flat one crosses the bridge to reach where is the Cornerstone of the broken rock from within the tunnel in order to carry the water to supply all the mills below. Progress upon this work in the tunnel is very rapid, on account of being contracted for. About four hundred feet in each end of the tunnel is the distance now traveled by the Chinamen. The entire length will be 2800 feet, and then a flume 2480 feet long completes the means of obtaining as great, as safe, and as completely under control a water power as can be found in any manufacturing town of the world. With the exception of the tunnel and the flume nature had done everything that was necessary. The damming of the canyon, which was done by means of heavy timbers, cemented into the rocks and then planked, formed a vast reservoir, five miles long and three-fourths of a mile wide, which contains an inexhaustible supply of water. Waste gates in the dam give a perfect control over this body of water, and the vast canyon affords a secure outlet for any flood, even the bursting of the dam, without there being any possible danger to life or property.

The saw mill, which already gets its power from the reservoir of the lake, is complete in every particular. There are two sets of double cylindrical saws, a planer and all the machinery necessary for turning out matched lumber, etc.

The lake itself is one of the prettiest spots to be found anywhere in America. A few words will not suffice to give any idea of its beauties, which must be left to another paper.

Henry J. Hefty, the architect, No. 252 First street, corner Main, has been quite busy of late drawing plans for several new buildings, one a three-story brick 51x200 adjoining the Merchants' hotel, also Turn halle, besides several small dwellings.

Mr. Jules Bloch, who yesterday made an assignment for the benefit of his creditors, is in no way connected with the pawnbroker business, except as an agent, and money will be loaned as usual.

A private party will loan on diamonds, watches and bonds from $100 to $4,000, at a [illegible]. Address [illegible] this office.

Returned.

Uncle Bloch, proprietor of the Loan Office, 100 First street, has just returned from Eastern Oregon on a business trip.

Billiard Match To-Night.

Brunswick billiard hall, corner First and Alder sts., between C. Miller, champion of Montana, and Wm. Simpson, champion of Idaho, for a purse of one hundred dollars. Admission free.

BUSINESS ITEMS.

A Pure and Effective Hair Dressing.

COCOAINE, a compound of Cocoanut Oil, beautifies the hair and is sure to allay all itching and irritation of the scalp.

The superiority of Burnett's Flavoring Extracts consists in their perfect purity and strength.

Pond's Extract for Pain. You seldom see much allusion to it in the public prints, yet its sale has extended to all parts of the world.

Advice to Mothers.

Mrs. Winslow's Soothing Syrup should always be used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhea. 25 cts a bottle.

For 50 years the Vegetable Pulmonary Balsam of Cutler Bros. & Co., Boston stands unrivalled for Colds and Consumption.

Seaside Libraries.

Another large assortment just received; all the popular authors; 10 and 20 cents each. Catalogues free. Geo. H. Hill, City Book Store, 171 First street.

Trunks, Trunks!

The best place to get your trunks is at the Oregon Trunk Factory. H. Harris & Co., 11 First street.

Carriages and Wagons

Repaired at Vincent's, Second & Salmon sts.

Watches for sale at less than factory prices. R. W. Raymond, Howard, Vacheron & Trump, and P. S. Bartlett, and all kinds of Waltham and Elgin watches at prices that will astonish the natives. Uncle Myers, 181 First st.

THE VIENNA COFFEE HOUSE.

18 Washington street, leads all. Oysters in every style.

A RAILROAD HOSPITAL AT MISSOULA.

Work to be Commenced Immediately, and the Structure to be Done by August.

Mention was made some time ago that the Northern Pacific railroad company intended to build a hospital at Missoula. Affairs have now assumed definite shape and work will begin at once. A contract for the work was let this week to J. Wilson of this city, who will get out all the material here and ship it to the site of the work. Dr. L. Cohn, the company's superintending surgeon, leaves this morning for Missoula, to select a location.

The building will be constructed in three separate parts. The center or main building is 74x55 feet, two stories high, and will be occupied by the executive department. There will be located on the first floor the superintendent's office, reception room, dining room for patients, reading, library, smoking, operating and drug rooms. On the side will be a wing in which will be located the kitchen, pantry, laundry and drying rooms. On each side there will be a ward [illegible]. In the second story of the main building will be located the rooms of the officers. Above the kitchen there will be eight rooms for employees, and there will be twelve rooms for private patients. It is expected that the building will be finished late in July, and open for patients early in August. Particular attention will be paid to ventilation, heating and plumbing, and the building will be first-class in every respect. Mr. Otto Kleeman of this city is the architect. In a few days Mr. H. J. Macdonald of this city will go to Missoula to superintend construction.

An arrangement has been made by which all employes of the company on lines west of Helena pay monthly fees and dues, and they and their families will be entitled to receive treatment free in case of sickness or accident. Accommodations will be more than ample for railroad employes, citizens will be admitted for pay.

The company's staff of surgeons west of Helena is as follows:

Dr. Cohn, superintending surgeon; Dr. Beardsley of Tacoma and Dr. [illegible] of Chehalis, for the Pacific division.

Dr. [illegible] of Sprague, from Wallula Junction to Sprague.

Dr. Masterson of [illegible], Sprague to Spokane Falls.

Dr. Wesson of [illegible], Spokane Falls to Heron's.

Dr. Hedges of Missoula, Heron's to Missoula.

Dr. Morris of Helena, Missoula to Helena.

Dr. Dixon, resident surgeon at [illegible] Falls hospital.

THE MORTGAGE TAX LAW.

MORO, Or., April 25.

To the Editor of THE OREGONIAN:

What courts in Oregon have rendered a decision on the mortgage tax law, as enacted by our last legislature? What were their decisions and the date given?

A case (Mumford vs. Sewall) involving the legality of the law, was tried previously in the state circuit court for Multnomah county and was immediately appealed to the supreme court of Oregon which decided the law valid. Judge Deady in the U. S. circuit court decided that the law was unconstitutional upon grounds which were not presented to the supreme court.

The Daily Oregonian

SATURDAY MORNING, APRIL 26, 1884.

NEWS OF THE NORTHWEST.

Washington Territory.

Spokane Falls claims a population of 2800 people.

The adjustment between Yakima and the new county Kittitas leaves the latter owing about $15,000.

The delegates to the national democratic convention from Washington territory, are J. A. Kuhn of Seattle, and J. W. Offield of Asotin.

The Jefferson county assessment roll figures up $900,000. This is small when compared with the city of Olympia roll, which goes up into the millions.

James McNaught, attorney for the Northern Pacific, says the recent injunction obtained by Wells, Fargo & Co. against the Northern Pacific express, was only a temporary one, and that the case will be carried to the supreme court.

The following delegates were chosen to attend the territorial convention at Dayton by the republican county convention held at Seattle the other day: Dr. T. T. Minor, S. Baxter, George D. Hill, A. E. Alden, George W. Tibbetts and Isaac Calhoun.

The republican county convention of Thurston, which met the other day at Olympia, selected the following delegates to the territorial convention: H. A. Clarke, Geo. A. Barnes, Thos. Heacock, W. D. Fales, with I. C. Ellis, Geo. Gelbach, W. Irving and W. Ragless as alternates.

Mrs. St. George, living near Pomeroy, got a fall from a horse Saturday that came near costing her life. Her horse stumbled, she naturally drew a tight rein and this caused the horse to rear up, and she fell off and was so hurt as to lay in an insensible condition for two hours; one rib was broken and she was otherwise bruised.

Sometime last December Captain W. B. Seymore went over to the house of J. D. Sellick, his father-in-law, on Lake Union for the purpose of carrying off his little three year old son, who was there in the custody of his mother, and in making his way off the premises with the child he was intercepted by Mr. Sellick, who attempted to stop him, when Seymore drew a pistol and fired it over the old gentleman's head. For this offense Seymore was indicted by the grand jury. Wednesday the case came on for trial at Seattle in the district court. After being out about three hours, the jury decided to bring in a verdict of not guilty, which they did, and the defendant was discharged.

Western Oregon.

The annual session of the Oregon conference of the Evangelical Association has been changed from the 30th to the 23d of May, one week earlier, in order that it may not conflict with the Agricultural college commencement exercises. Bishop R. Dubs, D. D., of Cleveland, Ohio, will arrive in Corvallis about that time to preside.

OUTGOING PASSENGERS.

The Columbia sailed at midnight with the following passengers:

Mrs E H Stagg & ch'n	E W L Smith

Mr. William Astry has a floating palace. So have we. Ours is on the water and ours floats in the air.—*Chattanooga People's Paper.*

TRADE AND COMMERCE.

FRIDAY, April 25.

For a few days past the condition of the weather has occasioned much comment and some apprehension. Cold rains at this time of the year are not particularly inquired for. To-day clearing weather gives rise to the hope that the most severe rains are over. Trade is of a quiet nature, yet of good proportions. Overland receipts to-day include 5 cars agricultural machinery and large shipments of hardware. Some time ago we noted the fact that a large lot of lemons were on route and last evening 100 boxes came in to Wm. Dunbar. The came in prime condition, although on the road longer than expected. We are promised more similar arrivals. By far the bulk of overland arrivals do not appear in our extracts, as only grocery lines are regularly mentioned. On Tuesday and Wednesday 19 through cars passed Helena westward. Overland receipts include 110 cs syrup, 30 sks prunes, 103 cs lemons, 125 cs can goods, 100 bxs candles, 5 cs cocoanut, 74 pkgs tobacco, 50 bbls lubricating oil, 259 kgs nails.

PRODUCE RECEIPTS—Past 24 hours: 423 bbls flour, 721 ctls oats, 165 ctls bran, 143 ctls millstuff, 303 lbs hides, 53 cs eggs, 4 bxs fruit, 8 bxs butter, 48 bls flour. Also 923 ctls wheat, 350 bbls flour, 2010 lbs hides from the eastern section.

FREIGHTS—No transactions, and the market presents nothing of new interest.

WHEAT—Advices to-day are of a firm character with some advance reported abroad and at Chicago. The feeling as to outside markets has shown material improvement, but on the spot operators hesitate, although current report says an advance on $1 47½ is possible.

FLOUR—The Imperial mills at Oregon City are now running day and night to grind for foreign markets. The market is considered the trifle steadier.

CHICKENS—In extreme instances $7 50 is had for choice, but the general run of stocks are sold at $6@7.

EGGS—Steady at 20 cents. Arrivals fully meet the demand.

The Merchandise Markets.

The few canners that are doing anything report the run light but giving promise of increase. The general desire to work closely keeps back a large number of boats that would otherwise go out. Fishermen are averse to working for a bare living and do not take hold with the customary energy. The price of fish is given at 70 cents against 90 cents last year. On the Sacramento the run is fully as light as with us, and 45@50c is paid for fish. The pack on both rivers is all of one-half less than that of last year. Atlantic markets are heavily stocked. The English market promises better, as with low stocks and cheap freight rates it would appear that the early business would go that way. Coffee is more affected by New York advices. The rate of freight from New York to Chicago and St. Louis has been lowered 35 and 32 cents respectively. This is causing some movement in that direction. Tea remarks no change. China rice gives evidence of weakness, but Island remains firm. Sugars and other groceries are in good movement and unchanged. Grain bags are firmly held by importers, who expect that an advance must come if crops turn out as well as they promise. Outsiders are more disposed to push sales. Arrivals of tin were mostly sold ahead, but it is claimed that future arrivals will be in slow sale. The hardware lines are in good business.

BEANS—Small whites, 3½c, bayos, pink and butter, 5c.

BREAD, ETC.—We quote: ship 3¾c, pilot 3¾c, ox trap lot 4½c, soda crackers 5@6c, other crackers cakes and biscuits, 6@13½c as to kind.

COFFEE—Quote at 18@14c for Costa Rica and 20c for Java.

PICKLES—Quote $1 25@1 40 for kegs.

CANNED GOODS—We quote corn $1 60; tomatoes 2½s, $1 35, 3s, $1 50; pie peaches, $2@2 25; table peaches, $2 50@2 75; assorted table fruits, $2 75; assorted pie fruits, 2½s, $1 75, gallons, $4 50.

COAL OIL—Best brands, 26c; others, 17@22c

RICE—Mixed China, $4 50@4 75; Island, $6@6 25, and firm.

SALT—Quote: $16, $20 and $22 50 for 200s, 100s and 50s. Half ground coast, $10 50.

SUGARS—We quote: (A) patent cube, 10c; (A) crushed, 10c; dry granulated, 9½c; extra golden C, 8¾c; golden C, 8½c; D in bbls, 7c; extra powdered 10c. Quotations are for bbls, halves and boxes, ¼@½c advance.

WOOL BAGS—We quote 3½ lbs, 48c; 4 lbs 42½c; Fleece twine, 10c; sewing, 30@35c.

The Meat Market.

Quotations represent rates paid by slaughterers to dealers for whole carcasses.

BEEF—Values will go lower with the coming in of grass feed. Quote best quality 5½@6c; cows 4½@5c.

VEAL—Large, 8@9c; less than 100 weight, 10c.

MUTTON—Weakening tendency. Quote 4½@4¾c.

HOGS—Choice fat 6½c; fair to good 5¾c; dressed 8@8½c.

LAMB—Spring, $2 50.

SHIPPING NOTES.

The Nor bark Jorsalfarer, from Liverpool via Victoria to Janion & Son crossed in this morning. She has for this city 100 tons salt, 65 pkgs earthenware, 500 pkgs liquors, 100 bbls cement, 350 pkgs chemicals, 200 pkgs groceries.

A San Francisco dispatch this morning regarding the time of the Columbia and Queen of the Pacific up the coast is based on mistaken information. The latter left port half an hour ahead of the former which was off the bar at 4 A. M., the second day. The Queen passed up probably two hours before this time, but had the Columbia been bound for Victoria the difference in time would have been no more than three or four hours. The Queen is, no doubt, the faster boat, but in a three day run cannot gain one day on any of the regular steamers.

Br ship Lake Erie, hence Dec. 12th with 29,134 ctls wheat by Sibson, Church & Co., has arrived out in a passage of 134 days.

Br ship Inchgreen, hence December 18 with 33,628 ctls wheat by Sibson, Church & Co., has arrived out in a passage of 128 days.

Br ship Tythonus, London for this port, was spoken 21st inst. about 100 miles west of San Francisco.

Later particulars of the loss of the ship Rainier have been received. On the day before the ship struck, early in the afternoon, and while steering N W, an island was sighted and was passed in safety. The night shut in so dark that nothing could be seen the ship's length, hence the near approach to the breakers before the lookout discerned them. The ship bumped heavily all night and when daylight dawned no land was in sight and a heavy sea running. At 9:30 A. M. of January 3, the lookout on the forecastle deck sang out "breakers ahead," and the ship immediately struck. After being landed by natives the crew occasionally returned and did all possible to save cargo and wreckage. She struck on a coral reef not placed on charts, hence no blame is laid to Captain Morrison. He owned four sixty-fourths of the vessel, and his share is understood to be uninsured.

CASTORIA

for Infants and Children.

Castoria promotes Digestion and overcomes Flatulency, Constipation, Sour Stomach, Diarrhœa, and Feverishness. It insures health and natural sleep, without morphine.

"Castoria is so well adapted to Children that I recommend it as superior to any prescription known to me." H. A. ARCHER, M. D.,
82 Portland Ave., Brooklyn, N. Y.

What gives our Children rosy cheeks,
What cures their fevers, makes them sleep,
'Tis Castoria.

When babies fret and cry by turns,
What cures their colic, kills their worms,
But Castoria.

What quickly cures Constipation,
Sour Stomach, Colds, Indigestion,
But Castoria.

Farewell then to Morphine Syrups,
Castor Oil and Paregoric, and
Hail Castoria!

CENTAUR LINIMENT—an absolute cure for Rheumatism, Sprains, Burns, Galls, &c. The most Powerful and Penetrating Pain-relieving and Healing Remedy known to man.

Established 1860.

TUTT'S PILLS

TORPID BOWELS, DISORDERED LIVER, and MALARIA.

From these sources arise three-fourths of the diseases of the human race. These symptoms indicate their existence: Loss of Appetite, Bowels costive, Sick Headache, fullness after eating, aversion to exertion of body or mind, Eructation of food, Irritability of temper, Low spirits, A feeling of having neglected some duty, Dizziness, Fluttering at the Heart, Dots before the eyes, highly colored Urine, CONSTIPATION, and demand the use of a remedy that acts directly on the Liver. As a Liver medicine TUTT'S PILLS have no equal. Their action on the Kidneys and Skin is also prompt; removing all impurities through these three "scavengers of the system," producing appetite, sound digestion, regular stools, a clear skin and a vigorous body. TUTT'S PILLS cause no nausea or griping nor interfere with daily work and are a perfect

ANTIDOTE TO MALARIA.

Sold everywhere, 25c. Office, 44 Murray St., N.Y.

TUTT'S HAIR DYE.

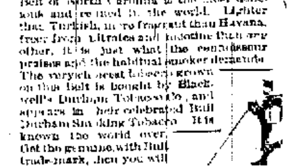
GRAY HAIR OR WHISKERS changed instantly to a GLOSSY BLACK by a single application of this DYE. Sold by Druggists, or sent by express on receipt of $1.

Office, 44 Murray Street, New York.

TUTT'S MANUAL OF USEFUL RECEIPTS FREE.

When you come to think of it, it is not odd that literary people prefer a pipe to a cigar. It is handier to smoke when they are writing, and ever so much cleaner. And then it gives them the true essence and flavor of the tobacco.

The most fastidious smokers among all nations and all classes of men agree that the tobacco grown on the Golden Tobacco Belt of North Carolina is the most delicious and refined in the world. Lighter than Turkish, more fragrant than Havana, free from nitrates and nicotine than any other, it is just what the connoisseur praises and the habitual smoker demands. The very choicest tobacco grown on this Belt is bought by Blackwell's Durham Tobacco Co., and appears in their celebrated Bull Durham Smoking Tobacco. It is known the world over. Get the genuine, with Bull trade-mark, then you will be sure of having absolutely pure tobacco.



A SKIN OF BEAUTY is A JOY FOREVER.

DR. T. FELIX GOURAUD'S

ORIENTAL CREAM or Magical Beautifier

Purifies as well as Beautifies the Skin. No other Cosmetic will do it.

Removes Pimples, Freckles, Tan, Moth Patches, Rash and Skin Diseases and every blemish on beauty, and defies detection. It has stood the test of 30 years, and is so harmless we taste it, to be sure the preparation is properly made. Accept no counterfeit of similar name. The distinguished Dr. L. A. Sayre said to a lady of the haut ton, a patient: "As you ladies must use them, I recommend 'Gouraud's Cream' as the least harmful of all skin preparations." One bottle will last six months, using it every day. Also, Poudre Subtile removes superfluous hair without injury to the skin. Mme. M. B. T. GOURAUD, Sole Prop., 48 Bond st., N. Y. For sale by all druggists and fancy goods dealers throughout the United States, Canadas and Europe. Beware of base imitations. $1000 reward for arrest and proof of any one selling same.

CANCER.

The experience in the treatment of Cancer with Swift's Specific (S. S. S.) would seem to warrant us in saying that it will cure this much dreaded scourge. Persons so afflicted are invited to correspond with us.

I believe Swift's Specific has saved my life. I had virtually lost use of the upper part of my body and my arms from the poisonous effects of a large cancer on my neck, from which I had suffered for 20 years. S. S. S. has relieved me of all soreness, and the poison is being forced out of my system. I will soon be well.
W. R. ROBISON, Davisboro, Ga.

Two months ago my attention was called to the case of a woman afflicted with a cancer on her shoulder, at least 5 inches in circumference, angry, painful and giving the patient no rest day or night for 6 months. I obtained a supply of Swift's Specific for her. She has taken 6 bottles, and the ulcer is entirely healed up, only a very small scab remaining, and her health is better than for 5 years past; seems to be perfectly cured.
REV. JESSE H. CAMPBELL, Columbus, Ga.

I have seen remarkable results from use of Swift's Specific on a cancer. A young man near here has been afflicted 5 years with the most angry looking, eating cancer I ever saw, and was nearly dead. The first bottle made a wonderful change, and, after 5 bottles were taken, he is nearly or quite well. It is truly wonderful. M. F. CRUMLEY, M. D., Oglethorpe, Ga.

UNDER LIP AND INSIDE OF CHEEK EATEN AWAY BY CANCER.

My father had an eating cancer for several years, which had eaten away his under lip and the inside of his cheek down to the bottom of his gums. We got some of Swift's Specific and gave him, and the effect has been wonderful, almost miraculous. The soreness all healed and he is perfectly well. Every one here said it was only a question of time about his death, and his cure has created the greatest excitement in this part of the country. I hope you will publish about my father's cure, and send the same circulars to give to my friends and the afflicted. WM. R. LATHROP.
South Easton, Mass., Jan. 7, 1884.

Our treatise on Blood and Skin Diseases mailed free to applicants. THE SWIFT SPECIFIC CO.,
Drawer 3, Atlanta, Ga.

New York Office, 159 West Twenty-third street, between Sixth and Seventh Avenues.

HODGE, DAVIS & CO., Agents Portland, Or.

PAPILLON BLOOD CURE

IT IS NOT AN ALTERATIVE. IT RESTORES THE BLOOD TO A HEALTHY CONDITION. FOR ALL DISEASES OF THE LIVER, STOMACH, BOWELS AND KIDNEYS, AS LIVER COMPLAINT, DYSPEPSIA, FLATULENCE, STOMACH-ACHE, JAUNDICE, CONSTIPATION, COLIC, VOMITING, NERVOUSNESS, WAKEFULNESS, BACK-ACHE, NEURALGIA, AND SICK-HEADACHE, FITS OF EPILEPSY, ANÆMIA, OR POVERTY OF THE BLOOD, CHLOROSIS, ESPECIALLY IN YOUNG FEMALES SUPPRESSED OR PAINFUL MENSTRUATION, WAKEFULNESS, AND FEMALE WEAKNESSES, THIS MEDICINE IS ABSOLUTELY CERTAIN. BEING PURELY VEGETABLE, IT CAN BE TAKEN INTO THE MOST DELICATE STOMACH. A NUMBER OF RECENT TESTIMONIALS ARE PROFUSE IN PRAISE OF THIS EXCELLENT REMEDY. ITS PROPERTIES ARE SLIGHTLY CATHARTIC ACTING MORE DIRECTLY UPON THE LIVER. IT IS VERY PLEASANT TO TAKE.

PRICE, $1.00 PER BOTTLE SIX FOR $5.00. DIRECTIONS IN TEN LANGUAGES ACCOMPANY EVERY BOTTLE.
